

FACULTY NEWS (Continued)

In the Montreat Science department is Miss Boss Kimbrough from Lexington, Mississippi.

Our dietitian, Mrs. L. M. Lanning, comes from Hendersonville, N. C.

Miss Zaulson Anderson of Florence, S. C. is now an instructor in the Bible department.

A resident of Montreat, Miss Henrietta Bedinger, will teach General Science and Physiology.

We shall miss those members of the faculty who have left, but we are delighted to welcome the new ones.

SHOES (Continued)

It would not be fitting, of course, to omit from this masterpiece the group of people who go barefooted. Small freckled faced boys with snagged-tooth grin usually fall into this classification; however, a person often sees gorgeous bathing beauties displaying their lovely tanned feet before a charmed audience.

Prior to the war, millions and millions of shoes, sandals, and slippers of all sizes, shapes, colors, and styles were sold. Now, since the ration book, our most valuable possession, has come into being, the sale of foot covers has dwindled down to almost nothing. The styles are rapidly changing to simple patterns and inexpensive materials. However, it can truthfully be said, "Styles may come and styles may go, but shoes go on forever!"
