

Government Calls For Sacrifice!

Because of our good behavior during Mrs. Roosevelt's chapel visit, we are being rewarded with something very special. Five hundred--with ratings!--from Moore General will be here this week-end for dances and dates. We haven't decided where we'll put them yet, but maybe they'll bring their pup tents along. And they are expecting fun and entertainment. Won't we all ???!!! Mr. Robertson has contacted the leading florists in Asheville who will help in the decoration of Assembly Inn's newly completed Roof Garden, where all the dances will be held. We have sought to please all music fans in our engagement of orchestras. There will be two dances; for those who like "the sweetest music this side of heaven" we have Guy Lombardo, but for those who prefer "swing and sway" we have Sammy Kaye. Girls, this is the chance to do something for your country! Your government is asking you not only to sacrifice your trip home, but to stay and build up the morale of our fighting men. (Did you ever see five hundred men who weren't fighting?) Think it over seriously. The Roof Gardens may be open again, but never with five hundred men, Guy Lombardo, and Sammy Kaye.

INDOOR SWIMMING POOL TO BE OPENED AGAIN

When Gaither Hall was built, it seemed such a pity to cover up with rock floor the beautiful indoor swimming pool which had always been such a delightful place on cold winter evenings. Now, at last, through the influence of the incoming Cabinet members, the pool will be opened again, and all may bask in the warmth of the pool where we once trod to classes.

HAPPY
EASTER!

MONTREAT TO BE CO-ED NEXT YEAR

Gasps of awe, wonder, and astonishment are in order. Yes, the "un-happenable" is about to happen. MONTREAT IS TO BE CO-EDUCATIONAL NEXT YEAR! Yep! There it is; can you believe it? Of course, this is a rather radical change, but even that isn't all...we will be allowed to walk around the campus unchaperoned with our best "boy friend" and enjoy the scenery, as well as being able to talk up Montreat to him. This is the most joyous time of our whole lives, but we have been long in anticipation of it and shall be on our very best behavior. Since only the best type of boys usually comes to the school, we feel that Dr. Anderson has made a very wise step in allowing us this privilege.

Dating parlors on the entire first floor of Alba enable the students to treat the boys to the very best in music, and to converse about the future without being annoying to others. These forward steps are but an evidence of the progressiveness which has kept Montreat vitally alive during the 25 years of her life. Now we can get that social poise and forget the timid awkwardness with which we previously greeted our "best" beau.

LIGHT BULB SUPPLY EXHAUSTED

Because of the shortage of light bulbs (due to defense needs), all rooms will be furnished with flash bulbs beginning tomorrow morning. These bulbs are not very expensive, and though probably not as serviceable as the other kind, can be procured with a minimum of trouble at the Montreat store. Mrs. Henderson will be too glad to give any directions concerning the usage of these flash bulbs.

MUD PACK PROVES UNSUCCESSFUL

Last week one of the girls from College Hall did a bit of research in regard to a certain beauty treatment. She had a restful mud pack. It took masons 33 hours to chip off the cement some pranksters substituted.
