Montreat College Enrollment Now Nearly 350

Faculty Consists Of Five Additions For 1946-47 Session

Five new faculty members have taken their places in Montreat College for the 1946-47 session.

Miss Mary Branche is not in a new environment for she is a "Montreat girl" herself. After graduating from Montreat College, Miss Branche attended Maryville College, receiving her B. A. degree. She then studied at Tennent College in Philadelphia and earned her B. R. E. degree there. She has been doing her graduate work at Winthrop College. Miss Branche has been principal of several elementary schools in South Carolina. This year she is teaching Bible, religious education and geography and is helping supervise the teacher training.

Miss Mary Julia Campbell is from Donalds, South Carolina. She graduated from Erskine College with a B. A. degree, majoring in Music and English. She has for the past year been doing graduate study at the University of South Carolina. Miss Campbell has also taught for several summers in the Transylvania Music Camp in Brevard, North Carolina. This year she will teach piano and instrumental music and will be in charge of the orchestra.

Mrs. Scott is formerly of Elon College, North Carolina. She has had a great deal of teaching experience in the schools of North Carolina. Mrs. Scott will teach dramatics and speech here this year. Mr. Scott is chaplain at Oteen Veterans' Hospital and Elise Scott is attending high school here.

Mrs. Taylor is a very versatile person. She is teaching High School physiology, taking several college classes and serving as our school nurse. Mrs. Taylor received her training at Johns Hopkins Hospital. With her other activities, Mrs. Taylor finds time to keep house, too. Captain Taylor is a Psychiatrist at Moore General Hospital.

On the masculine side, there is Mr. Greer Johnson, the Business

NEW BUILDING IS WELL UNDER WAY; CAFETERIA SYSTEM IS AGAIN IN USE

Since last spring when a crowd of girls stood in the cafeteria line and watched a truck pull down the last of the chimney of old Alba, Doctor Anderson's dream of a new building has begun to materialize in the form of brick and stone walls, window frames, concrete slabs, and wooden structures.

The Cafeteria system that was begun last January is still being used, and is generally well liked. The College girls say that they like the idea; they can sleep an

extra half hour. Mrs. Henderson and Miss McElroy are in charge of the Cafeteria.

The high school department is having classes in Anderson this year, and Gaither is being used for college classes.

Another building near the cafeteria is at present being made ready to house the Business Education Department.

The third floor and a part of the second floor of Assembly Inn is again being used as dormitory space for college girls.
