

Nation Rivets Attention On Winter Sport

As this article goes to press, the fifth winter Olympic Games contests being held in Switzerland are holding the keen interest of the many countries who have participants in the games. There was a lapse of twelve years between the fourth and fifth winter games, because of the war.

An American woman plummeted down the snow course in the skiing event against Europe's masters, coming in second place.

In Ancient Greece the Olympic games was a general name for one of their national festivals. The origin of the games reaches back into a remote antiquity, and was attributed by the Greeks in various traditions to a divine source. Only Greeks of pure descent were allowed to participate in the games until the conquest of Greece by the Romans, when they also were admitted to the games.

The ancient Olympic games died out during the fourth century, A. D., and were not revived until 1896, when the first of a new series, the "Modern Olympic Games" was played in Athens. These games have been suspended only during the world wars.

Honor and shame from no condition rise; act well your part, there all the honour lies.—Pope

High School Board Urges Tribe Spirit

It isn't too late to get in the "basketball swing." Those who know from experience say there's nothing to compare to the fun found in a good, fast game of basketball. Remember, the more there are playing, the better chance your tribe will have of winning the basketball tournament and the cup. So let's all go out for basketball 100 per cent.

Girls, hiking is still going on, so let's all go on hikes and get points toward that "M". Every hike counts, so come on, everyone.

Then there is still Indoor Sports, which includes checkers, darts, badminton, etc. So come on down. Five points an hour!

College Tribe Enjoys Outing

A party was given on Saturday, February 7, in the Rec Hall by the Cherokee Tribe. The main event of the evening was the skating (and the wonderful music!). Later folk games were played, and then refreshments of hot chocolate and cookies were enjoyed by all. Everyone had a very nice time.

Belated Initiation Is Held By College Board

On January 31, the Board members got together for an evening of fun. The members who had not been initiated were carried through the shocking ordeal, shrieking and screaming all the while. Games were played, refreshments served, and then the evening was topped off by sled riding on the hill.

Staff Moves Into New Workroom And Office

Recently a new member has been added to the Staff of Student Publications. This new member belongs to a general group often written with one of a number of adjectives, some of which are bed, living, laundry, class, bath, or dining. Our particular one we proudly label Staff "Room". The Staff Room is located on the first floor of the Infirmary. Although new to this business of editing a newspaper and annual, she has already been a partner in some early morning and late evening labor. And if there should be one among you who does not believe there is work in this business, just try it for yourself sometime.

If you were to nose into the Staff Room today, it is probable that your eyes would meet a strange conglomeration of papers, pencils, notebooks, and pictures scattered over the room. However, it will not be for long. Better things are yet to come. A cabinet is already installed for filing, for keeping all the equipment, and for storing old issues of the *Dialette* and *Sun Dial*.

The room furnishes a fine place for the Staff to work. There is a big dream for its future with confidence that it will see many good issues of the *Dialette* and editions of the *Sun Dial* in all the years ahead.

Bible School Training

(Continued From Page 1)

day night February 5, to talk to those girls who were interested in taking these courses. He explained just what the courses would offer in the way of instruction and discussed the possibilities of being employed by the committees of Religious Education in the various synods to do work in Bible schools next summer.

Approximately twenty-five girls attended this meeting and expressed their desire to take one or both of these courses, some of them having already completed the preliminary course on *Understanding Children*.
