

College Welcomes New President

Call Issued For Journalists

Write? We want you! Like to? We need you!!

The first of another school year has done it to us again. The *Dialette* Staff is sadly depleted and in urgent need of aid—but quick! Are you looking for a thankless job that pays no money—no money, that's true, but it's carloads of fun and means that sense of satisfaction and pride that comes with the accomplishment of a job well done.

The betterment of Montreat College is the aim of the *Dialette*. As a member of the Staff of Student Publications, you will have a very definite part in that project as carried on through the press.

Membership on the Staff offers you a chance to do practical journalism work. Experience is not required, but a sincere, intense interest in the work of the Staff is definitely a requisite for acceptance.

Tryouts will be held in Gaither Hall this week. Watch the bulletin board for announcements. Have an interview with one of the executive members of the Staff. Tell her what phase you're interested in, and soon you may be wearing the green and white Sun Dial, the emblem of the S. P. S.

High School Changes Its Abiding Place

Well this year the high school girls are going to meals and classes from a new direction. Instead of having to come down the long stretch from College Hall and Lookout, we have only to go down a few steps and across the lake and we are at Anderson where we have our classes. We may have a little farther to walk to meals, but we scarcely notice a few extra steps when we know

WHO S WHAT . . .

Are you confused? I mean are you confused about terms like Board, Cabinet, Council, or S.P.S.? I was when I was a freshman. I felt more like a carpenter than a freshman trying to remember words like the "Board" or the "Cabinet." Well, if anything I say in this article will help you become a more informed freshman, or even a better carpenter, I'll be happy.

First, let's start with the Cabinet. Now the Cabinet is composed of the Presidents of all the big organizations on the campus. By the big organizations I mean the Student Government Association, The Christian Youth Fellowship, The Athletic Association and The S. P. S. (Staff of Student Publications).

Also on the Cabinet you have the Vice-President and the Secretary of the Student Body, the House Presidents, and Assistant House Presidents. Each class elects its own officers and the Presidents of these classes are on the Cabinet too. So you see the Cabinet isn't so complicated, is it? Now look, when you have any suggestions, criticisms, or re-

porting to do, go tell a Cabinet member, because they are interested in you and what you want.

When you want to know about the hikes or your hours of recreation, ask someone on the Athletic Board. Look in your Handbook and find out who is on it; these are the girls that wear blue and gold emblems and caps on Saturday. Anything to do with sports will be taken care of by your Athletic Board.

On Tuesdays you have probably noticed the girls in green and white. These are the members of the S. P. S. We are grateful to them for our paper and annual. They want your suggestions too.

I know you have enjoyed all the different Sunday night programs we have had, the beautiful religious posters, Morning Watch, and so many other things made possible through your Christian Youth Fellowship.

Well, Fellow Carpenter, there you have them. They want to help you—and they need you to help them. I love fifty-fifty propositions, don't you?

Joan Rodrian

Ten New Members Are Added To Faculty

This fall marks the beginning of a new era in the life of Montreat College. Our New president, Dr. J. Rupert McGregor, has assumed his new duties here with offices in Gaither Administration Building.

Dr. McGregor was born in eastern South Carolina and is a confirmed sand-lapper. He attended Davidson College, Columbia Seminary, Union Seminary, and the Biblical Seminary in New York. Dr. and Mrs. McGregor met at Columbia, S. C., at a spring Carnival, and from then on, Dr. McGregor declared, "I was helpless." He is fond of golf and football, and has played semi-pro baseball. He is planning to move to his new office in Gaither in just a few days and reminds the girls that his office door is always open to them. Dr. McGregor thinks that the Montreat girls are a fine group, and he wishes he had a beau on hand for each one.

Mrs. McGregor, the wife of our president, is also a South Carolinian, from a town with a population of 75. She is a graduate of Queens College in Charlotte. Mrs. McGregor's hobbies are hiking, keeping house and taking care of her husband. She finds that being the wife of a college president isn't very different from being a minister's wife. Mrs. McGregor is looking forward to the day when she will have her own home here in Montreat, so she can invite the girls there.

Miss Sue Burney of Hopewell, Virginia, is head of the Physical Education Department. Miss Burney attended Montreat College, 1943-'47, and summer school at Woman's College, U. N. C., this past summer. She is fond of all sports—especially horse back riding, swimming, and golf. She plans to attend Columbia University and study for the recreation-
