

SPORTS

HIGH SCHOOL PLAYS SOCCER AND INDOOR GAMES

The High School soccer tournament is still being played. For the fourth game of the tournament, the Chickasaws tangled with the Shawnees and broke their backline twice to win by a 4-0 score.

The next game, between the Sequoias and Apaches, was a closely contested one. The score of 2-2 is a sufficient explanation of how exciting was the battle between the two equally matched teams.

The Blackfoots and Shawnees played the sixth game of the tournament, and ended in a tie, 2 - 2.

The seventh game of the season between the Apaches and Blackfoot ended in an 8-0 score with the Apaches on top.

In the following game, the Shawnees defeated the Sequoias by one point, 4-3.

Across the hall from Miss Webb's room is a wonderful place for table tennis lovers to spend a little leisure time. There is a complete ping pong set for the use of students at specified hours, and those who have been there seem to love it. If you haven't been down to 241, why don't you go?

CHRISTMAS PLAY IS

(Continued From Page 1)
innovations in the form of furniture.

Time grew short. Suddenly it was the night of dress rehearsal. Oh! The less said about that the better. The Christmas "tree" from up the mountain was pronounced "scrawny." Lines weren't pronounced at all, and Mr. Mooney pronounced the play a mess — or words to that effect.

Saturday. Orders to the cast:

"WILLIE" KERLEE VOTED SOCCER QUEEN

Miss Wilhelmina, "Willie" Kerlee, daughter of Mr. and Mrs. H. A. Kerlee of Black Mountain, was elected as the Soccer Queen to reign over the Montreat School Thanksgiving game.

"Willie," a Junior, came to Montreat in her freshman year and has made a fine record since that time. The Athletic Board, as well as the Chickasaw Tribe, are proud of "Willie" and her leadership ability. With her guidance, the Chickasaws appear to work together as one in a spirit of good sportsmanship and love for their tribe.

"Willie" seems to be very interested in the University of Connecticut, and we think that she has a very good reason. Gene seems to be a swell guy.

"Get a half hour sleep this afternoon." A new tree properly decorated. At 6:45 the beginning of make up, etc. Last minute preparations. Then . . . Curtain!

SOCIAL EVENTS . . .

The girls of the Sophomore Home Economics Foods Class entertained the Juniors and Seniors with a tea December 3, and the faculty with a party on December 8.

On December 4, at 8:00 P. M., the College Dramatics Club presented the play, "Christmas for Cinderella." There was a large attendance of both students and townspeople.

Misses Ann McClintock and Mary Bess Plyer visited their respective homes in South Carolina over the weekend of December 5.

The Council has been making Christmas stockings for the patients at the Sanatorium. They worked in the Home Ec. lab for almost three weeks to get these done for the patients' Christmas.

COLLEGE TURNS TO INSIDE ACTIVITIES

Indoor sports are taking the headlines in the sports world this season, leaving the soccer tournament as a vague memory to all of us, except the Mohawks who came in first place, and the Navajos who rolled in second place.

Much interest has been aroused in indoor sports as a result of the new ping-pong tables that are now in College Hall and Fellowship. Other highlights are the games which are being played in the lobbies and the organized indoor sports consisting of teniquoits, ping-pong, and skating. Heretofore, interest in indoor sports has been somewhat lacking, but these games promise to prove as exciting as the soccer tournament.
