Welcome To Dr. & Mrs. McGregor

The word WELCOME may be rather over-worked, but at any rate, the tried and tested word is said here strongly, clearly, emphatically, and sincerely. It is said by Montreat and its inhabitants; it is said to Dr. and Mrs. McGregor.

Wednesday, May 18, they came home, and that same night Dr. McGregor spoke in Assembly Inn.

Dr. McGregor described the actual campaign and its accomplishments as unbelievable. He said the people of Scotland "put us to shame with their cordiality and friendliness" and are "hungry for God's word."

This first-hand account being told by someone known and respected, carried much more real meaning and real feeling than all the news stories ever read about the crusade.

There were many little incidents told by Dr. McGregor that touched the mind and the laughing apparatus. He told of his discoveries concerning the McGregor clan, of the heat wave at 60 degrees, and of the various "teas" including "high tea."

As was said, these were quite enjoyable little anecdotes; but the one that touched the heart was the one about 'the 250 pound, rugged Scotsman who came down to one of the meetings and said simply, "I heard they were finding God down here, and I've been looking for him all my life."

Although it was said about the Scotland Crusade, it could be said equally well -E. M. about Montreat.

LAST WILL &-From Page 1 and Louise Bennett, commonly known as Mary Margaret McBride, will Complex Apts. to Elaine, Louise no. 2, and Beth with hopes that these winsome, charming, young ladies will rejoice day by day in that which we have left them.

I, Olivia Bishop, will to Sabra Slay the talents which I have acquired at Montreat -getting to the steam tables in the dining hall at the exact moment that the supply of pork chops runs out and at which time hash is substituted, and also the skill of being first to reach the "clean-up" table after it has closed, giving me the privilege of taking my tray to the kitchen.

I, Mary Moser, leave my ability to keep quiet, especially early in the morning, to my friend across the hall, Mary Lott Walker.

I, Ruth Wooten, will to Sarah Jackson, Mary Lou Gray, and Cathy Harper (future practice teachers) my ability NEVER to make blunders, mistakes, and slips of the tongue in the classroom.

I, Julia Traynham, will to Susie Eng, Nora Liang, and Peggy Rogers my ability to participate in sports.

I, Betty Blount, being of sound mind and fairly good health leave to Catherine Byrd and Nellie Attaway the checking of Christmas lists in Dr. Mac's office and to Shirley Caudill my "joy" in office work.
