

HATS OFF TO FRESHMEN

We have been wanting to say for a long time that we think the freshman class is great. We were here when they arrived and were extremely surprised by their clean-cut look and their politeness. We know that at last Montreat has been given students worthy of her name.

We were astonished at how faithfully our freshmen obeyed us during "Rat Week". We know that they did not do this because they were scared but because they were good sports.

We were even more impressed to find them studying so hard. It is indeed good to see students at college study--after all, that is what college is for.

Our freshmen work hard in class and just as hard outside of class. Freshmen for the most part make up the newspaper, the choir, the conservation club, and the reorganized Thalias. We have heard rumors from freshmen that some of them are planning a pep band.

We congratulate you, Freshmen, for your choice of Montreat-Anderson for we need good people like you.

DAILY DEVOTIONS

Too often we rush about from day to day without even thinking once of our Creator. Won't you take a little time each day to read these verses? It will make a difference to you.

YOU HOLD OUR FATE

We are looking for a place--a place in the life of each student at Montreat-Anderson. We, the staff, want more than anything for The Dialette to be the true voice of this college. In the past, as the Sophomores will remember, there was no news medium on this campus except the grape vine. Of course, some of you will hardly call The Dialette as it is now a "news medium." But our paper cannot become the center of campus life unless you support it. We are not asking that you send us a big check (although that might not be a bad idea) but we are asking each one of you to read the paper and sometimes to make some suggestions. Help us to make it better by your suggestions.
