seminar work. Nine Montreat-Anderson students were screened and have accepted the invitation to take this extra work in history. These are: Elaine Crawford, Cathy Digges, Sandy Edgerton, Lee Ann Howard, Phronsie Horton, Peggy Highnote, Leesa Heidleberg, Nancy Lucas, and Susan Spittle. Each month the group led by

Miss Hoyt and Mr. Kester will hold a discussion seminar on specified topics related to India. A term paper is required for completion of the course. A speaker from India may also be available for the group. Other Montreat-Anderson departments offer such opportunities, and it is hoped that students will strive to qualify for the challenge which an honors course offers.

AROUND SUSAN

Welcome, Johann Sebastian Bach!

Montreat has now become the residence of a new, but lovable personality. His wagging tail, sensitive eyes, and fond attachment to the Music Building can only mean one thing - Bach is back.

Mr. Bach resembles a member of the canine family and has several of the "doggy" characteristics. His four legs and floppy ears are almost a "give-away" to his natural origin.

What Bachis doesn't matter. What he has done is the important thing!

Before he came for his unexpected visit, scarcely one student had enough interest to stoop and be kind to another. Mr. J.S. Bach has now changed that. Noonday, upon entering the dining hall, one hears the sounds of friendly affection and love calling - "Here, Bach. Have some lunch."

Thank you, Mr. Bach. Again, man's best friend has taught man the art of caring!

"Swing" was the topic movement for the Saturday, February 19, couples' dance in New Hall.

This was one of the many events which are adding spice to the student life on the Montreat campus. The purpose - to give dates a chance to relax and enjoy a night of wholesome activity.

Congratulation to all those responsible for the success of the evening.

Hats-off to "McM" Perkins. We are delighted to have you back.
