IT'S UP TO US!

Every spring along with the birds and bees come Student Government elections. This should be the most important time of year for each one of us, for along with our new girl or boy friend we will be electing the leaders of this campus.

All year long we have been hearing how prejudiced our present Student Government is. It seems that sometimes this talk has been true. None of us really likes to think that there may be more involved in a violation of a campus rule or of the honor code than the violation itself. We don't like to think that if someone on cabinet has it in for us there is a great chance we won't be treated fairly. Some of us get violently mad about this misrepresentation. Now is the time for each of us to do something more than talk about the subject. It is up to us to elect strong, capable, and just people to the honor court and to the student legislature. If WE don't elect the very best possible people to student government offices, how can we in turn expect any type of student government?
