Student Representatives Selected

There are six committees that discuss school related topics with the MAC Board of Trustees, and each year students are asked by the Student Government President and Dean of Academic Affairs to serve on these boards. The committees and their members for this year are: Academic Affairs Committee - Warren Jones and Carrie Wolfenden, Student Life Committee - Rex Hoffman and Karen Young, Building and Finance Committee - David Burge and Ann Glenn, Finance Committee - Don Redmon and Beth Johnson, Board Committee - Rex Hoffman and Karen Young, and Development Committee - David Teague and Eddie Blanchard.

The students making up these committees represent the student body at MAC. If you, as a member of the student body feel there is something that should be brought up before the Board of Trustees, such as the lack of immediate student parking, these are the students to see!

MRS. JILL BRISCO SPEAKS TO MAC

Traditionally this time of year is considered by many Christian oriented institutes as a time for a revival in the Christian walk and Montreat proves to be no exception. Last year MAC shared in the Fall Festival of Faith featuring Luis Palou and the Agajanians (they will be back this week) and this year we have as a special guest speaker, Mrs. Jill Briscoe. "The value of having such famed speakers, not to minimize what God can do, is their great impact they have all persons, not only during their visit, but through their remembered words many years to follow." - Dean Evans.

The popular British woman, Jill Briscoe, spoke at different occasions the 24th through the 26th in and around Montreat. A once secular believing college student herself, Mrs. Briscoe had several interesting points in her testimony. She spoke on learning to be effective for Jesus

Christ and the importance of seeking to know Him.

She referred to the Trinity as a tower in our hearts in the vinard of our lives, the tower being made of the stones of dissappointments we so often experience.

In order to make wine from our vinard, the grapes have to be pressed. If we submit to the pressure - fruit will be produced. Jill spoke on the three loves, telling how they must be under the control of agape love. Eros is the human love, philo is a need love, and agape is given love, unconditional, regardless. It's an act of love based on the decision to choose God first over all.

Mrs. Briscoe who is usually noted for her talks to adult women, usually married, was warmly welcomed by the student body. She said that it was very refreshing to be among young people who are on their way to a beautiful journey. She was just glad to be a small part of it.

Chuckle

"They spoke with authority
from the depths of
their ignorance."
