They enjoyed the activities that were involved and would be willing to do it again."

Willcox also added, "Hopefully, we can make this an annual event with the city and M-AC, and make it larger and turn into a money-making situation for the clubs and organizations. Even though they didn't do well this

There are two new intramural sports: tennis and ultimate frisbee. The tennis tournament was held this week. Many students participated. The winners received points for their brother/sister hall and a T-shirt. The teams were divided into three groups: single's, women's, and co-Ed doubles. The winners will be announced at a later convocation.

The ultimate frisbee started this past Tuesday. Ultimate frisbee is similar to football. Each team consists of eight players and the object of the game is to get the frisbee across the goal line by throwing it to the other teammates. The team that scores the most points wins.
