CLOSE SHAVE — If Scotch tape doesn't work, perhaps the best way to remove fuzz balls from sweaters is to shave them off. Use either electric or regular razor but be gentle and make sure your hand is steady.

CRYSTAL CLEAR — For crystal that sparkles and shimmers, always add a little vinegar to the wash water. One cup vinegar to a quart of warm water should do. Drain on a tea towel, let air dry and watch it catch the light!

BREAKFAST SANDWICH — Or for anytime of day or night. Fry an egg & two, place on rye bread or perhaps an onion roll and top with tomato and onion — or whatever turns you on.

THE HOME GAME

STRAIGHT TALK — Dust your bacon strips lightly with flour before frying to prevent them from curling like a pig's tail.

WONDER WORKERS — Those fabric softener sheets work wonders outside the dryer, too. Cut down on hair static by rubbing one over the wild strands. Use old ones to shine up a pair of shoes. Or use fresh ones to make almost anything smell good — from linen closets to shoes.

SHIMMERING SHINE — To restore glassware such as cruets and vases to their original finish, measure 2 tablespoons ammonia in container and add water to fill. After an all-night soak, the stains and

cloudiness will disappear.

CHEAP SHINE — You can make your own silver polish and save a lot of money. Purchase Spanish whiting at your hardware store and mix a few drops of ammonia with desired amount to form a cleaning paste that'll cost you only pennies.

EARLY WORM — Early March is the best time to plant asparagus and rhubarb if your soil is workable. Test by squeezing a handful of soil. If it doesn't make a ball of solid clay it's ready to be planted.

QUICKIE TREAT — Put softened vanilla ice cream in the mixer and add crunchy peanut butter to taste. Blend well and pour into graham cracker crust. Freeze. Just before serving, top with whipped cream and chopped peanuts.

PROFESSIONAL TIP — Contemplating spring painting? To eliminate brush marks always start on the dry area and brush toward the fresh paint already applied. After reaching the painted area, lift the brush gradually at the end of each stroke.

SMOKE RINGS — Rings left on tables by drinking glasses can sometimes be removed by dampening a cloth in oil, dipping the cloth in cigarette ashes and gently rubbing the abrasive on the spot.

NEAT AS A PIN — Salvage all those large diaper pins — or buy yourself some new ones. They make ideal storage spots for lots of small, easily lost items. Smaller safety pins, nuts, washers, bobbie pins — they'll all slip over the open end of the large pin and snap safely in place.

CITRUS FLAVORING — Save all those golden orange and lemon rinds to flavor future foods. Pour scalding water over them, drain and put through the blender, food processor or food chopper. Allow to dry

and keep tightly covered in glass jars. Great addition to cakes, pudding and sauces.

A family living in France has the last name "O."

The custom of throwing rice at a bride comes from India where it is considered good luck.

TIM'S AUTO TIPS

CHECK YOUR STEERING if your car wanders or drifts. On a straight stretch of road, lift your hands from the steering wheel — only an inch or two so you can gain control if need be. If the car starts to move to one side or the other, check it out with a capable mechanic.

That could mean a tax savings of \$375 a year if you're in the 25% bracket — all because with an Individual Retirement Account at First National Bank, Uncle Sam lets you deduct \$1,500 (\$1,750 if your spouse doesn't work) or 15% of your annual wages, whichever is less, and pay no current income taxes on it. Savings are big in all tax brackets.

Nobody pays higher interest on IRAs than First National Bank. To enjoy great tax savings on your 1980 returns, you must start you IRA on or before April 15, so see Fritz Russell at our main office now!

The same deduction applies to your State return.
