NEXT WEEK'S HOROSCOPE

FOR RELEASE WEEK OF JULY 13, 1981

This is the week to be on the go. Plans reaped before, you now can sow.

Aries Mar. 21 - Apr. 19 Mars Your ruling planet, Mars, can make you see red this week. But most of what might upset you is minor and not worth all your energy.

Taurus Apr. 20 - May 20 Venus Venus, your ruling planet, is really in the mood for turning Taurians on to love.

Gemini May 21 - June 20 Mercury Gemini natives should be cautious of all propositions offered this week. Make hard decisions not based on ego-soothing soft soap.

Cancer June 21 - July 22 Moon The Cancerian Moon Child continues to be slightly moonstruck this week. This can weaken a good bargaining position in love and business.

Leo July 23 - Aug. 22 Sun The Leonine sun sign grows stronger and so does the Lion's inclination for a career change.

Virgo Aug. 23 - Sept. 22 Mercury There are some conflicts you have to resolve this week. A romantic problem needs delicate handling.

Libra Sept. 23 - Oct. 22 Venus Real estate seems to be the best business deal offer to you so far this week.

Scorpio Oct. 23 - Nov. 21 Pluto Making money is never difficult for one of Pluto's children. But making money last long enough to get you through a dry spell may be a challenge.

Sagittarius Nov. 22 - Dec. 21 Jupiter Big things are planned for you but keep everything in perspective. A long desired goal seems near.

Capricorn Dec. 22 - Jan. 19 Saturn You're going to have a lovely time trying to decide between two equally attractive business propositions.

Aquarius Jan. 20 - Feb. 18 Uranus Give yourself a little breathing space between commitments and assignments.

Pisces Feb. 19 - Mar. 20 Neptune After a setback in Pisces, get back on your feet and take the plunge again.
