Would You Believe...

The average person blinks about 25 times a minute.

England's King Edward III tried to outlaw bowling in 1366 because he said it took his soldiers away from archery practice.

Blood is six times thicker than water.

NEXT WEEK'S HOROSCOPE
BY SALOME

FOR RELEASE WEEK OF AUGUST 17, 1981
Share your Leo sign (through August 22) with Mick Jagger, Jackie Kennedy Robert Redford, Wilt Chamberlain, Cindy Williams and Virgo Greta Garbo.

Aries Mar. 21 - Apr. 19 **Mars**
While you spend more time making new business contacts, don't neglect those tried-and-true friends as part of your new plans. The Arian Ram or Ewe who feels romantic can safely make sheep eyes at a Libra.

Taurus Apr. 20 - May 20 **Venus**
Try to catch up on unfinished business before starting a new venture. While you may thrive on lots of work, you do need time for fun. A single Bovine may find an Aries divine.

Gemini May 21 - June 20 **Mercury**
Gemini Twins may find themselves rushing at a double-time pace just to keep up with everything going around them. Sort the tangle out before you tangle with something new. Do it best with a Scorpio.

Cancer June 21 - July 22 **Moon**
Your water sign indicates a tendency to waver a bit this week as several choices need to be made. Keep in mind that you do best when you think of the long haul over the quick lift. A Capricorn can lift your spirits.

Leo July 23 - Aug. 22 **Sun**
You probably feel like lying around as your stars settle into an ebb tide this time. But good tidings are just around the corner for the Leonine Lion. Write just that one more letter or answer that one more ad.

Virgo Aug. 23 - Sept. 22 **Mercury**
Industrious Virgo should be making a few new plans so that you'll have more than an expectation when you need something extra to draw on. That investment sounds good. Reserve a date with a dotting Taurus.

Libra Sept. 23 - Oct. 22 **Venus**
Could be a dry time for a while so water your current assets well and they'll be there to pick when you need them. Take time to see if you need to go in a new direction before you scrap your plans.

Scorpio Oct. 23 - Nov. 21 **Pluto**
Pluto, your ruling planet, is moving a little out of range this week which means you'll have to work harder to make that new plan start paying off. Pay a compliment to an Aquarius. Scorpio children need loving attention.

Sagittarius Nov. 22 - Dec. 21 **Jupiter**
If you think you hear bells ringing these days, you're probably picking up sounds of cash registers. Ease up on the buying. Keep cold cash for a really hot deal coming up. Aim at uncomplicating tangled affairs.

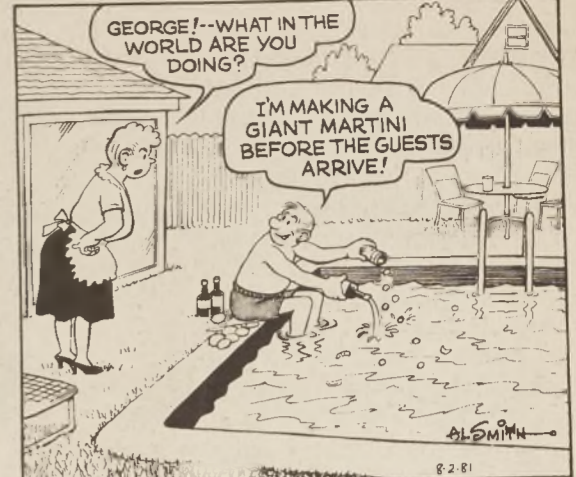

Capricorn Dec. 22 - Jan. 19 **Saturn**
The Capricorn Goat usually knows how to spot a phoney bit of baloney. But watch out for the flatterer who could flatten your hopes if you expect too much. A romantic Leo is lurking around.

Aquarius Jan. 20 - Feb. 18 **Uranus**
Your kind heart leads you into a loving situation. Be sure the object of your devotion is as unselfish as you are. In business, rely on your good instincts to warn you about something that could be a problem.

Pisces Feb. 19 - Mar. 20 **Neptune**
The Piscean Fish can once more net a profit out of an investment in real friendships. A grateful pal puts you on the path towards a successful stint. But the best reward is the deeper friendship that results.
