### Prophecy

The following are a few news items which our class prophet, Mr. Henry Grice, foresees will appear in the current papers in 1955.

The Johnstonian-Herald  
 June 7, 1955

**Governor Brannon Receives Serious Injuries When His Plane Falls Near Bagley, N. C.**  
 Gov. Shelborne Brannon was returning from Mars this morning in his 100 passenger plane when suddenly the pilot, Lieutenant David Munden, lost control of the plane. The plane fell on the roof of the 200 story Woodard Hotel building which is owned and operated by Miss Ruby Woodard. Miss Woodard entered suit against the governor this morning for \$10,000,000 damage.

The governor was taken to the Brown Hospital as soon as he could be brought from the Woodard Hotel. Dr. Joseph Brown gave him an x-ray examination which revealed several internal injuries. Miss Reva Mae Peedin, the governor's private secretary, received a few bruises. She is doing very well now.

The public is very anxious about the governor. He is serving his second term and the Communists have nominated him to run again this fall.

Mrs. Lloyd Foster, who was before her marriage, Miss Lillie Mae Munden, was arrested today on a charge of being connected with the underworld. She was taken to jail and locked in a cell from which no one has ever known to escape. She was questioned today by Solicitor of the Superior Court, Mr. Robert Suber, but she refused to talk until she had consulted her lawyer.

Doctor Elizabeth Oliver cures the Black Plague. Miss Oliver has been experimenting with patients who had Black Plague for ten years. In her ten years of experimenting, forty-nine patients have died but today the fifth patient seems to be improving.

At The Democratic National Convention today the majority of the votes were cast for Mr. Aaron Creech. Mr. Creech is from our community and he is expecting us to support him. Mr. Creech's father was a farmer and Mr. Creech's chief plank is Farm Relief.

Everybody is invited to attend the National Art Exhibition at Bagley, N. C. The following are going to represent the work of Johnston County. Miss Lillian Philips for painting, Mr. Walton Parker for sculpture, and Mr. Alton Staniel for design. The prizes are as follows: \$2,000,000 for painting, \$5,000,000 for sculpture, and \$2,000,000 for design. These prizes were

offered by the billionaire, Mr. Robt. Suber, who is solicitor of the Superior Court.

### Police Court News

The taxi-cab of Mr. Lloyd Foster was searched today to see if he had any connection with the underworld. Nothing was found but there was a strange odor in the cab.

Miss Nellie Hatcher was arrested today by Sheriff Hazel Holland for causing a disturbance among the communist mill-workers. She was put in jail without bail.

Miss Verdie Stallings, a very popular aviatrix, jumped from her plane today and was killed instantly. She left a note saying that she thought life was futile. She was engaged to Mr. Wm. B. Aycock, a hollywood director. Mr. Aycock was killed by herd of enraged elephants while he was directing a picture in Africa.

Mr. Lloyd Foster, a taxi-driver, and two negroes were heroes of the fire on Wood Square when Foster and the negroes broke through the glass door and entered the burning house of Mr. Paul Memmillan.

Miss Mildred Bailey died early this morning from Black Plague. Mr. Serews refused to embalm her on account of the disease. Dr. Oliver was summoned to embalm her. Dr. Oliver wishes to prevent a spread of this terrible disease.

### World News

Mr. and Mrs. E. T. Godwin left today for The Hague. Mr. Godwin is a prominent Johnston County politician and his wife, who was formerly Miss Irene Jones, has had considerable experience in politics also. They were appointed by President Howard Wilson. The chief question at the Hague is the use of poison gases for civilized warfare.

### Sports

Miss Pearl Batten will defend her featherweight championship this year at the gymnasium of the Woodard Hotel. Her opponent, Miss Pauline Barbour, has been preparing for this bout six years. Their managers say that they are in perfect condition. 40,000 tickets have been sold and a large crowd is expected. This bout will occur June 18, 1955 in Woodard Hotel.

### Races

The automobile race has been postponed until June 13. Miss Mary Gully will enter the field to hold

her record which is 375 miles per hour. She has built another racer "The Flop" which she hopes will make 450 miles per hour. Since she is from our community, we wish her good luck.

Miss Eunice Criswold will enter "Dobbin" in the horse race this race this year. "Dobbin" is getting old but he is able to put up a fight. His last record was a mile in forty-three seconds. Bandits have tried to steal him and he is guarded day and night.

### TIMES HAVE CHANGED

A long time ago when one's old horse ran away, he had longer to pray or think about what was happening to him; but nowadays, with automobile smash-ups, a lot of folks land in hell without a seconds notice. There is a big difference then and now.—Snow Hill Square Deal.

### MAKE QUICK BREADS WITH LIQUID YEAST

Liquid yeast, made at home with a commercial yeast cake, some irish potatoes, a little sugar and salt and warm water, will aid the farm housewife in having bread and rolls whenever desired, say State College home demonstration workers.

Miss Violet Alexander, home agt. of Beaufort county reports an interesting story of how Mrs. Edmond Jarvis of the Pantego home demonstration club kept a supply of this liquid yeast for about two years after the original cupful had been given her at a home demonstration meeting in April 1929. Mrs. Jarvis secured the recipe for making the yeast at the same time and did not buy commercial yeast in renewing her supply but used a portion of the yeast previously made. She kept a fresh quantity on hand until Christmas, 1931, when she moved from the Winsteadville community.

This liquid yeast is prepared from eight medium-sized irish potatoes boiled, 1-2 cup of sugar, 2 table-spoons of salt, one quart of luke-warm water and one cake of yeast dissolved in 1-4 cup of luke-warm water. The potatoes are peeled and mashed while warm and the other ingredients are then added in the order named. The mixture must not be more than lukewarm when dissolved yeast is added. Cover and set in a warm place for an hour. Stir and then pour into glass fruit jars, not filling over 3-4 full and not closing the lids tightly. Keep in a cool place.

Miss Alexander says liquid yeast will keep in an ice box for a week or more and in some other cool place for several days. One cup can be substituted for a cake of commercial yeast and one cup may be used in starting another culture. One cup will raise a quart of flour, quickly or one-half cup may be used when there is more time. Farm women in all parts of the State are now using the liquid yeast and find it economical and efficient.

### POLITICAL SHOW COMING

Approach of the big party conventions in Chicago has set all the prophetic tongues wagging. The Republican result is easy to forecast. Everybody feels sure that Hoover will be re-nominated, and that Curtis will probably be his running mate again. "Among the Democrats, however, there is real struggle and complete uncertainty," says Frank R. Kent in the American Magazine. "Anything can happen in the Democratic convention. It will be the biggest and best show of the year. In drama and intrigue, in action and color, in the thrill of conflict and the flow of human passions, there is nothing like it."
