Mrs. G. F. Brietz was a charming hostess to the Book club, Friday afternoon, September 30th, at her home on Railroad street. A brief business session was presided over by Mrs. G. D. Vick after which the hostess gave as her subject, "Russia." A large map of the new Russia or U.S.S.R. was exhibited by Mrs. J. B. Person and places of interest bearing on the afternoon's study was pointed out.

Two excellent papers were read the first by Mrs. C. W. Scales on "Stalin" and other Soviet leaders; the second by Mrs. W. T. Woodard on "Government by the Soviets" and "The Soviet Union For World Affairs," were comprehensive and interesting. Mrs. G. D. Vick and Mrs. Charles Stephenson also took part on the program.

The hostess passed paper and pencils for a contest which was won by Mrs. L. T. Singleton and was a lovely embroidered bag. A box of handkerchiefs was given Mrs. W. H. Call as consolation prize. Guests were then invited into the dining room where barbecue and accessories followed by a sweet course was enjoyed.

Railroad Shops Resume Activity

More Than 700 Men Recalled To Work By Atlantic Coast Line at Rocky Mount.

Rocky Mount, Oct. 3.—More than 700 men were recalled to the railroad shops here today when the huge Atlantic Coast Line plant resumed operations. No official announcement had been made tonight to indicate that the men would work permanently, but it is generally supposed that the force will work for several weeks before operations are curtailed.

Approximately 250 men were put back to work in the round house and on the rip track, while about 450 were recalled to the various shops.

It was reported that the railroad contemplated beginning full time operations in November when extensive repairs, needed on equipment, will be started.

The men recalled to the plants this morning had been idle here for the past several weeks and the recall created unusual optimism in the city.

Increased employment in tobacco rehandling plants and the full time operation of the textile mills located here has reduced unemployment to the lowest figure in several months.

Prize Offered.

The Young Men's Bible Class, taught by Dr. C. L. Wooten, at the Methodist Sunday School, is offering a prize for a suitable name for the class. Names to be mailed to J. C. Avery, Jr., Secretary, Selma, N. C.

Pou Takes A Hand In Discussion Of Relief

Representative Believes Tobacco and Cotton Growers In Need of Some Help.

Washington, Sept. 30.—Representative Pou today addressed a letter to President Hoover commending the administration for the recently announced policy of allowing a 75 per cent moratorium on crop production loans. This course Mr. Pou regards as both wise and humane, but he expressed to the President the view that such a policy should be general in its application, and certainly should include the growers of tobacco and cotton, when they were found in straitened circumstances. It is difficult for Mr. Pou to believe that materially worse conditions can prevail in the wheat belt than are now to be found in the southeast.

It is the present intention of the administration to pursue the course urged by Mr. Pou, but it is suspected that in the south it will be more of an individual matter, because the view is held here in official circles that the producers of cotton and tobacco, where conditions have enabled them to produce good crops, have not fared so badly, with improving prices. Many of the farmers have not sought extensions of their loans unless, as in some sections, they have suffered from the drought, or the ravages of insects to an unusual extent.

At the department of agriculture today some of the officials disclaimed any knowledge of the White House announcement of yesterday, that the 75 percent moratorium on the production loans would be so broadened as to include the tobacco and cotton growers. It was said that leniency had already been shown to individual farmers, in distress cases, but the department had not contemplated going beyond this.

If such departmental reports are well founded, it would seem that it is going to be advisable for the White House and the departmental officials to do some co-ordinating.

MECKLENBURG COUNTY OFFICIAL KILLS SELF

S. E. Cornwell, Treasurer, Commits Suicide Without Any Ascertained Reason.

Charlotte, Oct. 3.—S. E. Cornwell, treasurer of Mecklenburg county, shot and killed himself in the courthouse without and ascertained reason early today and the transaction of the county's financial affairs was temporarily halted.

The treasurer was found dead, slumped in a chair in a room to the rear of the civil courtroom by Judge J. V. Cowper when he entered to hang up his hat before opening court.

A revolver was found near. It is believed Cornwell took his own life shortly after he arrived at the building at 7:30 o'clock.

Coroner Frank Hovis said it was unquestionably a case of suicide. The treasurer's friends said he had been in impaired health. He suffered the amputation of a leg many years ago.

Immediately after the news of his suicide spread, banks of the city notified county officials they would not honor checks signed by Cornwell pending the solution of legal problems raised by his death.

Late today the board of county commissioners authorized its chairman, Joe A. Sherrill, to sign payroll checks until a new treasurer is selected.

Cornwell had served two terms and was the Democratic nominee for reelection.

HIGH BLOOD PRESSURE may be easily, inexpensively relieved, without drugs. Gladly send particulars. Send address: G. T. Stokes, Mohawk, Florida. 9-29

In Good Times and Bad
—Your Service Improves

SOME of our customers have commented favorably upon the fact that telephone service is better than ever, despite the depression, and that their telephone friends seem as anxious as ever to satisfy the individual needs of subscribers.

This is gratifying, but quite natural when one considers that service comes first with telephone people and that they regard it as a serious obligation to serve the needs of the public efficiently twenty-four hours a day in good times and bad times.

During the past ten years the number of telephones in practically every community has doubled and in some instances trebled. With this growth the service has become more complex but there has been a constant improvement due to scientific inventions, new methods and practices and a more skilled and experienced personnel. The value of the service has grown to the extent that it is regarded by many as the cheapest form of service that can be bought.

That the increased quantity and quality of the service has not been accompanied by a greater cost to the user is because of economies effected by new inventions and practices which have been passed on to the telephone using public in the form of more and better service.

Although your telephone company has suffered a serious loss in telephones and an enormous loss in revenue there are still many more telephones in service than there were five years ago and the cost, compared with the value, scope and quality of the service is much less than it ever has been.

Telephone people have faced the depression cheerfully. They have accepted shorter hours in order that the work might be spread among as many as possible and with a determination to fulfill their obligation to render the best possible service at the lowest possible cost consistent with financial safety.
