Selma and Pine Level Wage Scoreless Duel; Kenly and Clayton Get Wins.

Selma and Pine Level played 12 innings to a scoreless tie here yesterday afternoon as the game was called because of darkness. The game was a pitchers duel between Edwards and Fuquay, considered by many the two best pitchers in the Johnston County League. Edwards let Selma down with 5 hits while his teammates were collecting 7 off Fuquay. Both clubs had three men on the bases with only one out, at one time during the fray, but neither team was able to squeeze in a run. Oliver and T. Crocker led the visitors hitting with 2 hits each and G. Worrell collected a like number to lead the locals. Kemp caught for Selma and B. White for Pine Level. Yesterday's scoreless game makes two games that Selma and Pine Level have to replay. Their game last Friday was rained out after one and a half innings had been played. Selma plays at Spring Hope today and at Smithfield Friday.

Roosevelt Gets Mineral Water

Mrs. Francis Park MacDougall is shown above as she presented ten gallons of Carolina Pines Mineral Water to Marvin H. McIntyre, secretary to President Franklin D. Roosevelt, for the "good health" of the nation's Chief Executive. E. E. Brown, sales manager of the Carolina Pines water department is bearing a five-gallon bottle of the water.

Washington, D. C., July 19.—President Franklin D. Roosevelt will drink mineral water from Carolina Pines, Raleigh, N. C., for the next two weeks at least. If the President likes the water and feels that it is beneficial he will be supplied indefinitely.

A group of Raleigh people presented ten gallons of the water to the President through his private secretary, Marvin H. McIntyre. The water was delivered to the White House by truck from Raleigh.

Mr. McIntyre received the gift from Mrs. Francis Park MacDougall and E. E. Brown, both of Raleigh.

In presenting the water, Mrs. MacDougall said: "We have the honor on behalf of H. A. Carlton, founder and owner of Carolina Pines, 'North Carolina's New Playground,' and home of this mineral water, to deliver this for presentation to the President of the United States for his good health and with the best wishes of the people of North Carolina."

Mr. McIntyre replied smiling, that good water was a hobby of Mr. Roosevelt and that he was glad to receive a good mineral water from the Tar Heel people for whom the President held such warm regards.

The fame of this mineral water, arising amid the sporting and healthful environment of Carolina Pines, is spreading rapidly through the East. Presented and received with enthusiastic interest in Richmond, Washington, and Baltimore by statesmen and men of science.

Carolina Pines as a spa and a place of recreation, is becoming well known throughout the East, and bids fair to have its water and sporting facilities even more widely known.

Mr. Carlton, founder and owner of this extensive project, is still planning greater expansion of the development.

Frank Daniels Is Kiwanis Speaker

Frank Daniels, of The News & Observer, was the principal speaker at the weekly meeting of the local Kiwanis Club held in the city auditorium last night. A large number of the business men and ladies besides the members of the club were present.

Kiwanian C. P. Harper introduced the speaker of the evening, Mr. Harper in referring to Mr. Daniels' illustrious father, Hon. Josephus Daniels, Ambassador to Mexico, said "he was the best secretary of the Navy this country ever had." He said that the speaker of the evening was a chip off the old block and therefore needed no introduction to our people.

In beginning his address Mr. Daniels declared that since he had been asked to speak on the National Recovery Act he felt that he could probably do about as good a job of it as anybody except those who framed it, as nobody seems to understand how it works. He said that he had lost many hours of sleep studying its many provisions and thought that as it effects his own business he had about solved the most intricate contents of the measure, but could hardly be expected to do as good a job at unraveling the mysteries of the act relating to many other branches of business outside of the newspaper field. However, he did clear up many points which our merchants have been sweating over since August 1. The speaker was asked many questions during the evening about certain provisions of the act, and his answers to each of these showed his excellent familiarity with the new code.

James Davis, of Smithfield, accompanied by Miss Ellen Singleton, rendered two beautiful solos, which were greatly enjoyed by all.

The attendance prize, donated by Kiwanian Crain, was won by Dr. E. N. Booker. This prize which was a tiny baby doll, was declared to be very appropriate.

The program chairman, H. H. Lowry, called on Mayor William I. Godwin, of Selma, for a few remarks. The mayor extended a few words of welcome on behalf of the town to the distinguished speaker of the evening.

General Johnson Formally Launches Nation-Wide Buying Campaign— 'Chiselers' and 'Drones' Warned— Tells Them Not to Trifle With Blue Eagle; No Time to Save Money.

Washington, Aug. 6.—"Spend now for re-employment" and "spend under the Blue Eagle" was the message today of General Hugh S. Johnson, national recovery administrator, in an address here starting a nation-wide buying campaign and "chiselers."

He made it plain he intends to rely on the "boycott" to carry through his program.

Within two weeks, the administrator declared, "no man in this country who is really doing his part will have any excuse for non-membership in N. R. A.—at least no excuse good enough to warrant his asking for patronage at the expense of those who are making his plan succeed.

"It is no boycott for people who are sick of this curse of depression to patronize those who are working to get us out of it."

In his address, which was relayed to a mass meeting in Cleveland, Johnson praised that city and Mayor Ray Miller for its co-operation.

"We will be out of the depths of this depression by winter if only each community will seize the chance that the President has given it and—as Cleveland has done—as New York is doing—make one strong pull—one long pull—one pull together," he said.

"What must be done? Of course, first of all, every employer should put the Blue Eagle in his window, and deserve it. And here let me give a solemn warning.

No Trifling.
"Do not trifle with that bird. In the confusion of early days a man may get away with it. But the day of reckoning against an aroused public opinion is sure.

"This is no time to hoard," Johnson said.

"It is no time to save money. It is a time to get things. Buy the things you need. Spend for re-employment. If you don't spend now and get something, you will spend later for taxes and doles and get nothing. You should spend under the Blue Eagle. If you spent there, you are spending for increased employment."

The administrator turned to protesters of those who cite their obligations to stockholders as an excuse to stay out.

"We cannot belittle honest rights. But stockholders will be all right if this plan succeeds, but heaven help them if it fails. There is not a stock in the world that is worth a cent if it cannot earn, and no stock can earn if we are to let our business structure drop back into a new collapse. To put it in a nutshell: Men must earn before stocks can earn.

"We shall either succeed or fail in three months' time. If we fail, the loss to these companies will be many times their exaggerated estimate of what the plan will cost. If we succeed, the estimate means nothing.

"This country has nailed its colors to the mast. What we need is talk and more action."
