Secretary Stimson To Draw First Draft No.

800,000 Young Men To Be Called Into Service — 30,000 In First Group — Units Will Be On Way To Camps Within Three Weeks After Drawing.

WASHINGTON, Oct. 21.—At noon on October 29, Secretary of War Stimson will draw the first number in a nationwide lottery in which nearly 17,000,000 young men hold tickets—800,000 of them good for a year's service in the army.

Plans for the lottery were completed today at a conference of Dr. Clarence Dykstra, director of selective service, and President Roosevelt. At first Dykstra said that the President would draw the first number, but later it was announced that Mr. Roosevelt desired this honor to go to Stimson.

The President will attend the historic ceremony, to be held in the interdepartmental auditorium, and will make an address, to last about 10 minutes.

On Way In 3 Weeks.

Within three weeks after Stimson lifts the first blue number capsule from a big goldfish bowl, the initial contingent of 80,000 draftees will be on their way to training camps.

Men will be called to training—800,000 by next June 15—in the order in which their numbers are drawn from the bowl unless they volunteer without waiting to be called or unless they are deferred from service.

Although 4,000,000 more men are involved in the 1940 draft than in the world war lottery, the 1940 drawing is expected to take less time than did that of 1917.

Dykstra estimated it could be done in 12 hours.

The 6,500 local selective service boards throughout the country are now laying the groundwork for the lottery, shuffling the 17,000,000 registration cards signed in last Wednesday's enrollment of men 21 to 35 inclusive, and assigning serial numbers to the cards.

Start With 1.

Numbers in the lottery bowl will range from 1 to a number high enough to cover the largest number of registrants in any one local board area, with extra numbers to cover late registrations.

So far, national headquarters has not heard of a local board with more than 7,500 registrants. If any board's registration finally exceeds that number, state governors may be instructed to create additional boards to handle the extra numbers.

To illustrate how the system will work: If the first number drawn is 2,051, every registrant in the country holding that serial number on his draft board card will be the first in his area to be called to service, unless deferred. If a board in some sparsely-settled area does not have a number that high, it will ignore the first number drawn, and list the second or some subsequent number as its first order number. Serial numbers are soon to be posted outside the headquarters of local boards and will be available for inspection.

Well Known Colored Citizen Died Wednesday

Final rites for Charles C. Lewis, 57, who succumbed Wednesday of last week to an illness of several months, were held Friday from the First Baptist church, where during the fifteen years of his residence he had served as teacher in the Sunday school, as member of the board of deacons and as financial secretary of the church.

Lewis, for many years, was a leader in educational, religious and civic affairs in Johnston and adjoining counties. He was held in high regard by both races.

Resolutions respecting the life and work of Charles Lewis were read. Departments of the church by T. A. Freeman, Mrs. Selma Smith and Mrs. Ardelia Sanders; E. R. Williams, superintendent Goldsboro district N. C. Mutual Life Insurance company, spoke for his company; G. W. Bryant for the Masonic Lodge; Willard J. McLean, superintendent of the local school, for the school.

The principal eulogy was made by the Rev. A. B. Johnson, pastor of the First Baptist church.

BIG BROADWAY PLAY COMING

This uproaring comedy of love and intrigue which proved to be one of Broadway's biggest popular hits, will be seen at the Selma High school auditorium Friday night.

Fulghum Heads Draft Board Number Two

Charles B. Fulghum, of Selma, has been named chairman of Johnston County's Selective Service Board No. 2. Troy Page, of Clayton, is secretary and Dr. Elmore Earp of O'Neals township is vice-chairman.

The board held its organization meeting a few days ago and elected Miss Doris Jeffreys clerk of the board from a long list of applicants.

The building recently vacated by the ABC store has been secured as headquarters. Names of registrants who have been given numbers were posted on the windows today, more names will be placed as soon as their numbers have been secured. Board No. 2 serves the townships of Clayton, Selma, Pine Level, Boon Hill, Micro, Wilders, O'Neals and Beulah.

Ed F. Ward has been elected chairman of Selective Service Board No. 1. Mr. Ward revealed Monday that 3,807 registrants of the nine southern Johnston county townships served by his board has been assigned numbers after a public shuffling of the registration cards. Number 1, Mr. Ward states, was assigned to Willie Lee Green, 26, of Four Oaks Route 3.

Lester Parrish, of Selma Mill, was drawn as No. 1 by C. B. Fulghum, chairman. This paper will carry complete list of all selective numbers of No. 2 in our next issue.

The National Lottery, to determine the order in which the 17,000,000 draft registrants will be classified and selected for military training, will be held next Tuesday at noon in Washington, with Secretary Stimson drawing the first number from the famed goldfish bowl used for the World War draft in 1917.

Numbers ranging from 1 to 10,000 (which represents the biggest anticipated total number of registrants in any one local area in the country) will be enclosed in capsules and placed in the fish bowl for the drawing.

Play To Be Given At Selma School Auditorium Friday Night At 7:30.

The story moves from Europe to America, action is fast and furious, comedy lines continuous, dialogue crisp and humorous throughout the play and the intriguing love story running through the plot does everlasting credit to its famous authors, Augustus Thomas and George Middleton.

The last week end brought a variety of weather throughout the United States, with snow and freezing temperatures from Virginia northward to Maine, while in the deep south it was unseasonably warm. From the extreme west also came reports of real summer weather with temperatures in the high nineties.
