

U. S. Buries Enemy Seamen

Burial with full military honors at the National cemetery in Hampton, Va., was accorded to 29 crewmen of a Nazi submarine which was sunk by an American destroyer following a running fight. The bodies of the 29 Germans were recovered and brought to the naval operating base at Norfolk.

anese ships are left in the vicinity of the invasion. The Navy announced 17 more United Nations merchant vessels have been lost to enemy submarines.

Army
The nine army corps areas were reorganized and renamed "Service Commands." The reorganization will further decentralize the operation of Services of Supply activity and eliminate duplicating facilities. War Secretary Stimson said 28,000 Jaundice cases developed among Army personnel in the U. S. and abroad between January 1 and July 4, apparently due to the use of Yellow Fever vaccine. Sixty-two deaths resulted. "There has been a change in the form of Yellow Fever vaccine now used which the Surgeon General thinks will eliminate the whole trouble," Mr. Stimson said. Director Hobby of the Women's Army Auxiliary Corps said 20 companies of 150 women each will be trained by the end of this year and 25,000 women will be trained by April 1943.

Taxation and Profits
The House passed and sent to the Senate the War Revenue Bill, estimated to yield about \$6,300 million, providing a 45 per cent normal and surtax income rate on corporations and a 90 per cent excess profits tax. Treasury Secretary Morgenthau, however, said a tax program of less than \$8,700 million of additional revenue would be inadequate. He recommended removal of these "special privileges": tax exemption for State and municipal securities, exemption from taxation of 27 1-2 per cent of income from oil wells and mines, and separate income tax returns by married couples.

The House Naval affairs Committee, after investigating 40,000 contracts, said "95 per cent of the War Contractors are doing an honest and effective job and receiving only fair and reasonable profits," the average being 8 per cent.

Scrap Salvage Campaigns
President Roosevelt reported the recent scrap rubber collection drive added 454,000 tons to the Government's stockpile—exclusive of rubber in small piles still at service stations and junk dealers. WPB Chairman Nelson asked State and Local Governments to lend their trucks and workers to local salvage committees to help transport scrap material collections before winter sets in. To keep steel furnaces going at full capacity, more than 750,000 freight cars will be required to carry scrap iron and steel, most of which must be moved by trucks to rail points.

The WPB extended the tin can salvage program to 104 cities in addition to 36 Metropolitan areas previously announced, because de-tinning plant capacity requirements have been increased from 250,000 to 400,000 tons. The Board said the Government will requisition from junk dealers all useless automobiles—those that cannot be repaired on a practical basis—to maintain the present peak movement of automobile scrap to mills. On the basis of a questionnaire to 350 firms, the Board estimated 100 million pounds of essential chemicals could be realized in the next 18 months if manufacturers of war equipment began now to recover wasted spray paints.

Mrs. C. E. Howell Dies Near Kenly

Goldsboro.—Funeral services for Mrs. C. E. Howell, 56, were conducted Sunday afternoon at her home on Route 1, Kenly, by the Rev. Johnnie Alford of Kenly. Interment was in the family cemetery near the home. She died Saturday evening at her home following a stroke.

Four children survive: Mrs. Annie Snipes, Mrs. George Batten, and James Howell, of Route 2, Selma, and Brantley Howell of Route 1, Kenly.

What You Buy With WAR BONDS

Ships of the Destroyer type comprise the bulk of our fighting ships in the American Navy. Their average displacement is about 1800 tons, and they are fast, powerful, and hard hitting. They have been particularly effective in convoy duty and gave a good account of themselves in the Coral Sea engagement. They cost approximately \$3,600,000 each.

Every Navy shipyard is turning out Destroyers in record time. They are essential for our two-ocean Navy. Purchase of more and more War Bonds will assure all-out production of these vital units for the Navy. Buy every pay day. If everybody invests at least ten percent of his income in War Bonds we can do the job.

Waste Fats Needed To Make Explosives

Fats make glycerine and glycerine makes explosives to down Axis planes, stop Axis tanks and sink Axis ships. Dean I. O. Schaub, director of the State College Extension Service, says housewives can help supply the vital war material.

Dean Schaub has accepted the post as Chairman of the Consumer Division of the State Salvage Committee. Mrs. Estelle T. Smith, assistant to the State home demonstration agent, is chairman of the Women's Division of the Salvage Committee.

These two State College leaders have united in an appeal to all North Carolina housewives to save waste fats. "Don't throw away a single drop of used cooking fats," they urged. "This includes bacon grease, meat drippings, frying fats—every kind you use. After you've got all the cooking good from them, pour them through a kitchen strainer into a clean, wide-mouthed can. Store in a cool dark place."

Dean Schaub explained that meat dealers are patriotically serving as collectors of the waste fats. They have asked that waste fats be brought to them in one-pound lots, preferably early in the week. They will weigh the fats, pay the housewife for them, and start them on their way to the war industries.

Mrs. Smith lists four things "Not to do." (1) Don't take less than one pound at a time to your meat dealer; (2) Don't take your fats in glass containers or paper bags; (3) Don't allow fats to stand so long that they become rancid because, if they do the glycerine content is reduced; and (4) Don't take your fats to the meat dealer on week ends when he is usually the busiest.

Funeral Held For Child Near Benson

Benson.—Funeral rites for Frankie Lou Blackman, four-month-old daughter of Mr. and Mrs. Robey Blackman of near Benson, were held Tuesday afternoon at Lee's Chapel Church, with the Rev. F. B. Eastman officiating. Burial was in the church cemetery. The child died in Highsmith Hospital at Fayetteville early Monday night after a short illness.

Mrs. Kirkman Feted At Reunion of Hoods

Smithfield Woman, Nearing 87, Remembers Battle of Civil War

Smithfield, July 28.—Honoring Mrs. Dora Hood Kirkman of Smithfield, who will pass her 87th birthday on July 30, the annual Hood family reunion was held Sunday at the home of her daughter and son-in-law, Mr. and Mrs. D. H. Jones on Bridge Street. Around 100 relatives and friends enjoyed a bountiful dinner on the lawn.

Mrs. Kirkman, the only surviving child of the late Mr. and Mrs. John C. Hood, was born in Bentonville Township near the site of the famous battleground and has vivid recollections of the horrors of the battle when limbs of wounded soldiers were amputated under a shed near her home without the benefit of anesthetic.

The Hood reunion is held each summer on a Sunday nearest her birthday and attracts many relatives from a distance. A very interesting feature of the occasion was a moving picture of preceding reunions, when loved ones, now dead, could be seen moving about the grounds.

The Rev. B. H. Houston, pastor of Mrs. Kirkman, returned thanks before the guests began eating from a table containing two birthday cakes, one brought by Mrs. Kirkman's granddaughter, Mrs. L. K. Jordan of Mount Olive, and another by Mrs. Marvin Jordan of Smithfield, another granddaughter.

Out-of-town guests included Mrs. D. H. Hood, Mrs. James Best and Misses Flora and Madrid Best of Dunn, Mr. and Mrs. S. Z. Young and family, Mr. and Mrs. J. Thel Hooks and son of Raleigh, Miss Mamie Jones of Clayton, Mr. and Mrs. R. F. Smith of Benson, Mr. and Mrs. T. C. Jordan and Tommie, and Dr. Rachael Jordan of Oxford, Mablon Elliott of Danville Va.

Misses Kathleen Young and Dorothy Britt of Goldsboro, Mr. and Mrs. W. R. Britt and Mayo Britt of Garner, Mrs. Betsy Hood Proctor and son of Detroit, Mich., Mr. and Mrs. John C. Hood and Mr. and Mrs. L. K. Jones and daughter of Kinston, Mr. and Mrs. L. K. Jordan and son of Mt. Olive and Miss Lane of Wilson.

Mrs. Kirkman had many lovely gifts on display and numerous friends in Smithfield called during the afternoon to wish the honoree many happy returns of the day.

The rubber in a washing machine would make gas masks for three U. S. soldiers.

4-H Wildlife Camp Scheduled Aug. 4-8

Farm boys and girls who have conducted outstanding 4-H Club wildlife conservation projects during the past year have been invited to attend the annual Wildlife Conservation Conference at the Millstone 4-H Camp in Richmond County the week of August 4-8. L. R. Harrill, and Miss Frances MacGregor, State 4-H Club leaders of the N. C. State College Extension Service, are in charge of arrangements for the camp.

The Federal Cartridge Corporation has provided funds with which the 60 delegates from 15 North Carolina counties will receive free scholarships to the conference. The Department of Conservation and Development and the U. S. Soil Conservation Service will cooperate with the Extension Service in providing instruction.

Lewis Cannon, permanent camp director, and Vernon Jeter, waterfront director, at Camp Millstone will be on hand to help with the program. Recreation will play an important part in the week's activities.

Mrs. Charlotte Hilton Green, widely known Raleigh author and naturalist, will conduct nature hikes and teach courses in bird and plant life. W. J. Barker, assistant Extension forester of State College, will give forestry instruction.

E. V. Floyd, educational director of the Division of Game and Inland Fisheries of the Department of Conservation and Development, will conduct a class in "Game Management on North Carolina Farms." R. B. Armfield, field biologist of the Department of Conservation and Development, will conduct a tour to the nearby game farm and fish hatchery.

Counties which will be represented at the camp are: Caldwell, Alamance, Guilford, Wilson, Sampson, Pender, Catawba, Jones, Carteret, Cleveland, Nash; Buncombe, Wake, Robeson and Surry.

One newly-developed machine at a bomber plant performs 10 boring operations simultaneously, cuts a day's work to two hours, saves \$1,000 per plane.

MAGIC RECIPES WITH VICTORY VEGETABLES

Suggestions for new ways to use the fresh products of Victory gardens which Americans are growing to help the war effort. A timely feature in the August 2nd issue of

A Week of the War

- War Production Almost Triples In Six Months
- Large Plants to Suspend Civilian Production
- Peddlers of Bogus Ration Books Discovered
- Tire and Tube Quotas Increased — U. S. Navy Sinks Submarine In Eastern Waters.

The U. S. Overall output of planes, tanks, ships, guns and ammunition during June was nearly three times that of last November, the month before Pearl Harbor, War Production Chairman Nelson reported. Mr. Nelson stated, however, "too much boasting about production progress is altogether premature—the biggest part of the job is still ahead." Any letup now, he said, "would mean years more of war and hundreds of thousands more lives."

Chairman Nelson, as an index of the Nation's productive effort, estimated that approximately 36 per cent of the U. S.'s record breaking income during the first six months of this year went into military channels. This compares, he said, to the 50 to 75 per cent of total income being spent by Great Britain and Germany.

The War Production Board announced it will concentrate production of civilian goods in certain plants and regions as much as possible. The Board said, as a general rule, small plants will be kept in civilian production and large plants will be required to suspend civilian production. Civilian production will be restricted or suspended in regions where labor is urgently needed in war plants or where power shortages are likely to occur.

Rationing
Price Administrator Henderson reported gasoline coupon counterfeiters had been peddling bogus ration books in the East and stated these "saboteurs attacking our war program" will be prosecuted promptly and vigorously.

All persons found to be in possession of the counterfeit books, he said, are liable to have their regularly issued ration books either revoked or withheld. Because of delays in obtaining gasoline rationing coupon books, the OPA said service stations may sell gasoline on a "Coupon Credit" basis until midnight July 31.

The OPA increased tire and tube quotas for August and said 98,000 bicycles will be made available for rationing in August as compared with 45,000 in July. The office said only trucks engaged in services essential to the war effort or public health and safety will be entitled to recapped or new tires after July 28 under a drastic revision of the tire rationing regulations. The OPA published names and addresses of field representatives who may be called upon by tire dealers, recappers, truck operators and other users of tires for aid in solving problems arising under the rationing regulations.

Maximum Prices and Rents
Price Administrator Henderson reported "Government controls of prices

and rents, where they are in effect, are doing a good job of holding down prices, but uncontrolled food prices are showing a definite inflationary tendency." He said "the total cost of food to City families advanced by 1.3 per cent between May 15 and June 15, continuing the steady upward price trend of the previous 14 months and offsetting the benefits of price control on all foodstuffs covered by the general regulation."

Mr. Henderson said housewives and other members of the buying public will acquire the legal right, beginning July 31, to bring civil suits for damages against any storekeeper who charges more than OPA regulations permit. The purchaser is entitled to recover \$50 in damages plus attorney's fees or triple the amount of the overcharge plus the attorney's fees, whichever is larger.

Similar suits may be filed in defense rental areas against landlords who collect rents above those permitted by OPA orders. The office reported it has designated 370 areas as defense rental areas and by August 1 rent regulations will become effective in 94 of these areas.

Agriculture secretary Wickard announced a price adjustment and subsidy program designed to ease the temporary shortage of meats in the Eastern States and some parts of the Mid-West. The OPA asked livestock and meat packing industries to maintain a supply of meats in all normal trade channels rather than concentrate shipments to large cities where ceiling prices are relatively high.

The War Front
The Navy reported U. S. submarines in far Eastern waters have sunk another Japanese Destroyer, a medium-sized tanker, three cargo ships, and possibly a fourth cargo ship. The Navy said all of its large submarines are being fitted with cameras designed to fit over the eye piece of the periscope to record the results of submarine attacks on the enemy. Maj. Gen. Lewis H. Brereton, Commander of the Air Forces in the Middle East, said American Air Forces caused heavy damage to the enemy docks and port installations at Tobruk, Benghazi, Suda Bay and Crete.

President Roosevelt said Admiral William D. Leahy, former U. S. Ambassador to Vichy France, has been called back to active duty to serve as chief of staff to him as Commander in Chief of the Armed Forces. Gen. MacArthur reported from Australia that the new 2,500-man Japanese invasion force landed in the Buna-Am-basi-Gona area in New Guinea on July 22 has been subjected to such damaging raids that few, if any, Jap-

Closing Out ALL SUMMER DRESSES
