

WHAT SOME OF THE GRADES ARE DOING

PETER RABBIT

Donald Hancock brought us a black rabbit.
 We named him Peter Rabbit.
 We feed him cabbage leaves and lettuce leaves.
 He likes carrots, too.
 He eats apples, too.
 We give him water every day.
 We have a house for him.
 We want to buy a white rabbit.
 Do you have one for sale?

THE MIDDLE AGES

In Mrs. Kelly's sixth grade we have been studying in our history and language about the Middle Ages. We studied how they lived, what they did, how they dressed, and the kind of homes they had. I enjoyed studying about it very much.

Norris Andrews (6th)

OUR FRIEZE

We are working on a frieze in our room. Some people are drawing about some of the countries and cities we have visited in geography. We are now going into the Mediterranean Lands. We also have a sand table on which we are going to illustrate our travels.

Billie Griffith (4th)

OUR STUDY OF NORTH CAROLINA

In Miss McCrary's room we are going to study about North Carolina, our own state which we all love. I think we will enjoy studying about it. Rose and James have brought some things about North Carolina. We are planning to make maps and color some too. We have ordered some material from Raleigh the capital of our state. Some of us have received it already. We are all bringing things about North Carolina to school. We have already learned some things.

Doris Nance (4th)

Both Miss Briles' and Miss Welborn's third grades are studying Eskimos. The boys and girls have written stories and poems. They can tell you many interesting things about the Eskimos.

Betty Ruth Walter reports that Caroline Arden has brought some gold fish to Mrs. Hamlin's grade. She has named them Army, Navy, Ambrose, and Herman.

OUR MARIONETTES

Our room is making marionettes for a play "The Three Wishes". The marionettes are cut from white pine and the bodies and legs are joined together by screw-eyes. The heads are shaped from plastic wood. The committee is composed of Billy Johnson, Frank Morgan, Gerald Winfrey, and Percy Payne.

Percy Payne (5th)

THE GRAND CANYON

"Alice in Wonderland" is only a fairy tale but in our geography we have studied about some real wonderlands of the West. One of the most interesting things in the wonderland is the Grand Canyon. The Grand Canyon of Colorado is the longest and deepest canyon in the world. It was cut by the Colorado River and is in the state of Arizona.

Omle Hobbs (5th)

REPORT OF ROOM 2

If you were to walk into Miss Butler's sixth grade class room, you would see posters of all kinds and colors.

We have greatly enjoyed our study of the Middle Ages. We have written stories, plays, poems, made posters, and a few girls are working on a frieze depicting the different classes of people and their work.

We are very much interested in geography, in which we have drawn maps and flags of different European countries.

We have had a few visitors: Mr. Carroll; Mrs. Schroder, Mrs. Raper, Mrs. Bean, Mr. Sullivan, Miss Davis, and the the health inspectors.

Billie Gae Mercer (6th)

OUR NUT BASKET

We have a poster which has a picture of a basket with nuts in and around it. The nuts have words written on them. When everyone can tell what a word means, we write it on a nut and put it in the basket. We hope to have the basket full of nuts by the end of the year.

Norman Cates (4th)
