

# News For Veterans

Spanish-American War veterans should not assume that Veterans Administration can pay bills for their care in non-VA hospitals, the agency cautioned.

A substantial number of these veterans have entered private hospitals under the assumption that their care would be at VA expense and later have found they were not eligible for this benefit.

The veteran and their families have had to accept responsibility for the cost of the hospitalization, which often has been extensive.

VA said some Spanish-American War veterans apparently have confused their eligibility for VA outpatient care with eligibility for hospitalization.

Disabilities of Spanish-American War veterans are not automatically considered service-connected on application for hospital treatment

as they are on application for VA outpatient care.

The agency can pay non-VA hospital bills of veterans only under certain extremely limiting conditions.

The veteran must require emergency hospital care for a service-connected disability for which delay in treatment or travel to the nearest VA hospital would be extremely hazardous.

Since few Spanish-American War veterans have disabilities that are service-connected for purposes of hospital treatment, the number eligible for care in non-VA hospitals at VA expense is very limited.

Q—My son is eligible for college training under the War Orphans Education program. Would he be permitted to attend school in Canada, under the program?

A—No. Generally, War Orphans schooling in education institutions outside the United States is prohibited by law.

Q—I understand there was a recent change in the law which extended the date for a World War II veteran to get a GI loan. How much time do I have now?

A—You now have until July 25, 1960, to apply for a GI loan. The law allows up to a year after that date to complete the deal.

Before you blame your typist... take a look at her typewriter!

Maybe it's worn out. Maybe it just needs aligning. Maybe it's so out of adjustment that you should let us have it for a thorough reconditioning.

If it isn't the girl's fault it will cost you nothing to have us diagnose the trouble.
