### What's Your Postal I. Q. ?

FLIMSY PACKAGING IS A MAJOR CAUSE OF PARCEL DAMAGE

YES   
NO

IT'S MY MOM'S BIRTHDAY... HOW DO I WRAP IT ?

**TRUE.**—Every effort is made to avoid damage to mail while it is in the custody of the post office, but one of the major causes of damage that does occur is from inadequately-packaged cartons collapsing under the weight of other mail.

Observing these tips may assure the arrival of your parcels at their destination in good condition:

- Select strong boxes or cartons of corrugated or solid fiberboard, or kraftboard. Suit boxes or shoe boxes do not provide adequate protection.
- Use sufficient cushioning material to protect contents from outside impact.
- Place complete address on one side of parcel only—as an added protection, enclose a duplicate addressed label inside of the parcel.
- Obtain a free copy of the POD Pamphlet entitled, "How to Pack and Wrap Parcels for Mailing" from your Career Postmaster.

ship.
