

Washington Report

— By —
CONGRESSMAN WALTER B. JONES

Included in House action last week was approval of a bill regarding Federal Policy concerning Architectural Engineering and Related Services. An amendment was adopted that included the Department of Defense.

Many of us felt this legislation was necessary to the operation of government due to the evidence presented that all too frequently contractors would subcontract parts of their work to unqualified firms with the taxpayers getting a second rate job in construction and other contracts.

Armed Services Committee Chairman, Mendal Rivers of South Carolina, presented specific examples of this abuse an offered an amendment which

would include the Department of Defense which the House adopted.

Another bill approved by the House was entitled the Agricultural Marketing Agreement and Promotion Act on certain Farm Commodities. Included in this bill was authority for the Irish potato producers of this nation to conduct a referendum to impose upon themselves a 1 cent per hundred weight assessment for the purpose of research and promotion.

This will apply only to those producing five acres or more, and the plan must be approved by a two thirds vote of the producers involved. It provides that any producer who does not wish to participate in the program can request and will receive a refund of all money deducted.

The House also considered the Housing and Urban Development Act of 1970. The Committee bill considered by

REAL ESTATE TRANSFERS

Ralph V. Morey and wife, Prudence A. Morey, to Ira T. Street and wife, Patricia M. Street. Property in Havelock Park.

the House authorized funds for HUD through fiscal year 1976.

This total authorization was in excess of \$7 billion. It also provided wide latitude for Federal agencies to go into the field of insuring business and residential property.

A substitute was offered by Congressman Stephens of Georgia which was adopted by the House and which reduced the total authorization from \$7 billion to 4.28 billion by providing for HUD programs only through fiscal year 1972.

The substitute bill also restricted government operation in the insurance field, confining this activity to only that of "crime insurance."

I interpret this as in areas where riots and high percentage of crime exists, and where the private insurance companies are reluctant to offer coverage, HUD will be authorized to write insurance.

It now appears that Congress cannot possibly adjourn before December 19.
