The Memory Phone.™

Forget it.

Leave the house and forget the phone. Because now you can have a telephone that answers calls and records messages for you.
 The Memory Phone. It works like any telephone. Until you switch on the "memory" part. Then it answers calls automatically. In your own voice. And remembers every word your callers leave. Later it plays back everything that's gone on since you've gone out.
 Use the Memory Phone to monitor and record calls when you're home—but too busy to answer.
 We can install one for just a few dollars on your monthly statement. So whenever you can't answer the telephone, turn on the Memory Phone. And forget it.
