

## New Highlights office arrives

The new Highlights office loaded and ready to move from Brinson Memorial Elementary School to Vanceboro. The office will probably open next week.

Workers getting the new Highlights office ready for occupancy. The new office is located beside Cannon's Variety Store on Main Street in Vanceboro.

## Citizen of the Week

### Bryant awarded full scholarship

Andre Bryant

Andre Bryant, 18, has been awarded a full scholarship in basketball to Georgia Tech University in Atlanta, Georgia. The 6'9" star was offered about 32 scholarships, some being from Clemson, Notre Dame and Wake Forest but selected Georgia Tech because of their need for height in the coming season and their interest in him. By his sophomore year, Andre feels he will see plenty of action on the basketball court.

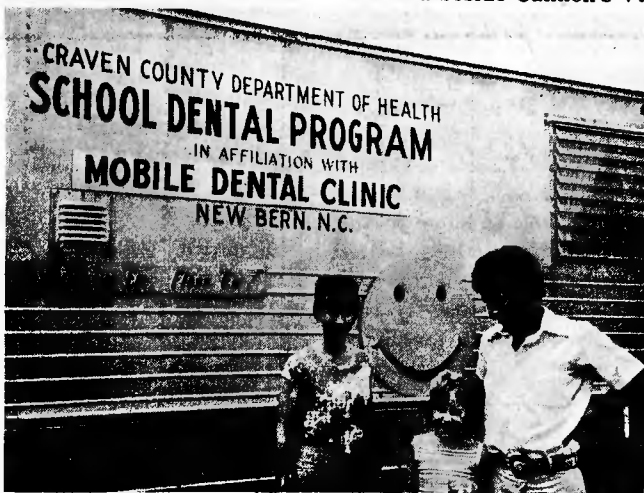

Several basketball scouts heard of Andre while he was attending Wake Forest Basketball camp last summer. While there he received the One on One Championship Trophy.

While attending West Craven High School he was awarded two One on One Trophies and has been

honored by being selected as a High School All American in basketball. Andre averaged 12 points per game and had a rebounding average of 10 per game.

Keeping a good attitude, ignoring bad things, keeping one's head straight and lifting up and pursuing what is good is Andre's philosophy in life. He participated in only one sport during his senior year because he wanted to keep his academic average to a "C".

During the summer Andre working at a basketball camp in Knoxville, Tenn. He plans to major in Business Management while at Georgia Tech. Andre is the son of Mr. and Mrs. Samuel C. Bryant of Route 2, New Bern.

Dr. Warren and Mrs. Best stand with a happy patient outside the Mobile Dental Clinic presently located at the Vanceboro Elementary School.

Dr. Warren and Mrs. Best use up to date equipment in the treatment of dental disease.

## Mobile Dental clinic in Vanceboro

The Craven County Department of Health Dental Program is sending a mobile clinic to the schools in a preventive program. The mobile dental clinic is one of the best equipped mobile units in the state. It supplies toothbrushes to the students, tests children in the schools who qualify for free dental care, and treats toothaches, the number one cause of absences in school.

The people who work with the clinic are: Dr. Warren, who has been with the department for two years graduated from the University of Tenn. at Memphis in Dentistry. He did his undergraduate work at Hendrix College in Arkansas.

Mrs. Best of New Bern has been a dental hygienist for six years. She received her training through the Health Department.

Jerry Wirthman is a registered Dental Hygienist. Jerry graduated from the University of North Carolina at Chapel Hill.

The mobile clinic stays at each school for three weeks every two years. The clinic will be working in Vanceboro until July 20. Since the program went into effect seven years ago there has been a dramatic reduction in dental decay among elementary grade children in the past two years.

Also there is a Florida Mouthrinse Program in the Jones and Pamlico County schools that helps prevent toothdecay in children. Test have shown the mouthrinse program has cut tooth decay by up to 50% when used on a weekly basis with young children. Craven County Schools do not have this program yet.
