

Dear Libby

Dear Libby:

I'm so burnt up about the Federal Government wasting so much of our hard earned tax money on such useless projects.

I read the other night where the federal government spent \$70,000 dollars trying to find out "why Jamaican women get pregnant." Any junior high or high school student could have told them without any cost.

Also, I'm so wrung up with our Social Service Department giving too many hand-outs. I think they should train and demand anyone able to work whether it's mopping floors, raking yards, etc. to do so. Then give them supplemental income to meet their needs.

Most of all it is so many women having one child after another out of wedlock and so many aren't

really capable of loving them and giving them the feeling of security and teaching them how to cope with everyday problems. I think the father of the children should be forced to help support them. Also there is free family planning offered.

I think if we as taxpayers have to support these families then sterilization should be forced after child No. 2. **Steaming in Craven County.**

Dear Steaming:

I'm with you 100%. The majority of my readers are also with you. I think it's time we rally together and start a petition and send it to our politicians and let them know our feelings. We can let them know we can vote against them if they don't take a stand for the people. **Concerned Also, Libby**

The first filmed presidential press conference took place in 1955.

Support the Vanceboro Dolphins in 1978

Craven County Champs - 1977

Vanceboro Dolphins (Jr. Midget)

Coach: Leonard Taylor Jr. Asst. Coach Louis Moore
