

## Squad Ready to Serve

The Cove City Rescue Squad began operation on Sunday, August, 16th immediately after dedication services there. The squad is made up of 22 active members.

The squad is operating at the present time with a used ambulance which was once used by the Hookerton Rescue Squad. President Ben Grady said that although the vehicle has been previously owned it is in good shape and is more than adequate for present needs. However, new radios have been ordered for the equipment.

Grady is looking forward to serving the community in the future, and the future appears to be a bright one. About 36 people have signed up to begin EMT courses in Cove City in the fall.

 Mike Morton, Your Pharmacist  
**Service, age old tradition**  
 As I look back over the past years of pharmacy, it's with deep pride that I recognize just how far our profession has come. One of the many traditions of the past that is as evident today (at least in our pharmacy) is the old fashioned standard of maintaining direct personal contact with our customers.  
 Indeed, a pharmacist is a prescription specialist, but I sincerely feel that pharmacy is so much more. It's contact with real people, not numbers, and real problems, not indifference.  
 We shall proudly continue in the tradition of friendly, caring professional service.
