

A family yard sale is a typical sight as you travel along the highways and byways of America. In above picture we can see Donnie Toler, Jennifer Toler, Diane Wilson, Russell Toler and Lester Toler have their wares set up beside Highway 17 near Askin.

Foot Injury

Lester Toler of Piney Neck sustained a laceration of the foot while placing a yard sale sign on a post beside Highway 17. Someone riding by the post had taken careful aim or just got lucky and planted a glass bottle against the post. The glass shattered and fell to the ground among the grass. Lester wandered across the grass to hang the sign and to his surprise he stepped on the remains of the bottle and required five stitches.

This costly accident could have been avoided if someone had been more thoughtful and placed the bottle in a wayside trash container. "COME AMERICA—TOSS IN, NOT AT."

.....
Sterling silver is actually 92.5 percent silver and 7.5 percent copper.

.....
For a zippy taste, try adding a dash of curry powder in the sauces for creamed vegetables.

.....
Refrigerator interiors should be suds-scrubbed periodically to reduce odors and bacteria.

.....
Lubricate nails or screws with soap to make them easier to drive into wood or plaster.

Wachovia Offers Student Loans

The College Foundation Inc. and Wachovia Bank and Trust Company jointly announced today that the bank will provide up to \$52 million to the Foundation for student loans during the 1982-83 academic year.

According to Duffy L. Paul, executive director of the College Foundation, the money will be used to fund about 20,000 loans to students under the North Carolina Insured Student Loan Program. Some 3,000 loans to parents of dependent undergraduate students can also be made under a new parent loan program expected to be operational next spring.

"It became apparent that money market conditions would prevent our obtaining the needed funds through the normal channel of revenue bonds issued by the State Education Assistance Authority," Paul said. "It was too late to put together a multi-bank financing package, so we were delighted to have Wachovia step in and commit these funds."

John G. Medlin, Jr., chief executive officer of Wachovia, said, "North Carolina is most fortunate to have an agency like the College Foundation to coordinate and administer a variety of student loan programs. Many individuals who would otherwise be unable to finance their education can attend college as a result of these programs."

The N.C. Insured Student Loan Program is available to qualifying students who are legal residents of the state enrolled at an eligible institution and from families with adjusted annual incomes of less than \$30,000; however, exceptions may be made above that income level for those meeting certain stricter needs criteria.

Loan applications are available only from the College Foundation at 1307 Glenwood Ave., Raleigh, 27605 and must be submitted for processing through the financial aid office of the school where the student is enrolled. "We are now processing applications for the fall term," Paul said, "so it is not too late for students to apply."

Traffic Accidents Decrease

In 1981 the number of people killed in North Carolina as a result of motor vehicle accidents was 1,497. This figure was down by 1.4 percent from 1980.

Slow! Deer crossing? The driver of the above vehicle says he dodged a deer on Rural Road 1440 and lost control of his truck and turned over into Richard Ipock's yard.

"Old American Spirit"

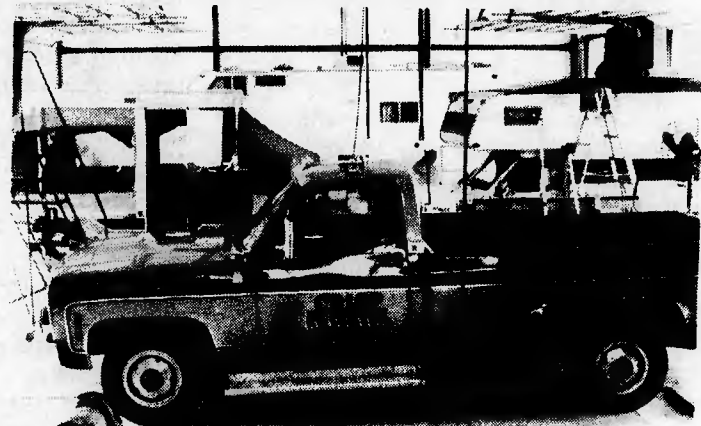

The "old American Spirit," alive and well in the 80's, is demonstrated again by a young couple who are painting and decorating the interior of the Eastern Carolina Vocational Center—the training center for handicapped individuals. Bobbie and Anne Baker are not only contributing their time to this beautification project, but they are also donating the materials needed.

Realizing the enthusiasm and interest which may be generated from this gracious endeavor, Congressman Walter B. Jones has agreed to christen the project by painting the first stroke at 10:00 a.m. on August 26, 1982. This honor belongs to Congressman Jones since he was the key person responsible for obtaining the funds to erect the \$5.2 million recreation and housing addition to the Center.

Perhaps others who view the broadcasts or read about it will also contribute their time and talents to make this service facility in our community a success.

Never place hot pots or pans directly on ceramic tile countertops. The thin glaze covering the tile will crack and discolor when exposed to high heat.
