

Vanceboro Woman Recovering

Ms. Joy Wright of 1st Avenue in Vanceboro is recovering at home from a bite from a pit bull dog. Ms. Wright was attacked by the dog as she was trying to capture the dog and return it to the security line in her neighbor's yard. The dog mangled the rear portion of her leg. The wound required surgery at Craven County Hospital and an over night stay at the hospital.

The owner, Mike Hallmark also of 1st Avenue, has placed the dog in quarantine and under observation. The dog had received rabies shots but it is required to place such animals under two weeks observation for signs of sickness that could be transferred to the bite victim.

Chiropractor Studies Athletic and Auto Injuries

Dr. Steven I. Cohen of Family Chiropractic Health and Accident Services, Winterville, has returned from a 3-day post graduate program in Miami, Florida.

The program studied the evaluation and chiropractic treatment of neck-shoulder-arm disorders particularly after an athletic or auto injury.

Dr. Frank Fika DC presented information demonstrating how even "minor" accidents (where vehicles are moving less than 15 mph) can result in neck injury with serious manifestations such as dizziness, insomnia, limited vision and hearing, irritability and depression.
