New Bern Farmer's Market To Open

The New Bern Farmers' Market will hold its grand opening the 1st week in June. Tentative plans are set to be open Tuesdays, Thursdays, and Saturdays. The time for operation will be 7 a.m. until products are sold.

The Market will have 20 stalls. If the demand for space is big, there will be available space outside.

A dinner meeting is planned for tonight, April 26 at 7 p.m. at the 70 East Fish Camp for anyone who plans to use the markets. At the meeting the rules regulations and price for stalls will be discussed.

Those producers who wish more information or cannot attend the Thursday meeting are urged to contact Bill Dunham, Craven County Agricultural Extension agent, who also chairs the New Bern Chamber of Commerce's Farmers' Market operating committee, by writing to P.O. Box 1340, New Bern or call 633-1477.

Paid for by Chris Barker, Jr. Campaign

N.C. HOUSE

YOUR VOTE AND SUPPORT ARE GREATLY APPRECIATED

YOU CAN SAVE \$250* ON HEATING AND COOLING YOUR HOME. ALL IT TAKES IS COMMON SENSE.

Savings based on houses with 1,500 square feet. Bigger houses save more.

to what we call "Common Sense" standards. And, even though it does cost a bit more to build, your energy savings of \$20 to \$30 a month make up the difference in a hurry.

What's more, chances are, there are also a lot of ways you can save in the home you're in now. So call us or stop by.

Whatever your housing situation, we're happy to help out. Because the more you get out of your energy dollar, the more we get out of ours. And that's better for both of us.

CP&L

The Better You Do, The Better We Do.

The way you build a home can make up to a 40% difference in what you pay for heating and cooling.

Yet some people tend to think an energy-efficient home has to be an exotic plan out of the 21st Century.

The fact is, almost any kind of house can be built
