## Fun Time Circus To Appear In Vanceboro

Thursday, Oct. 11 will be fun day in Vanceboro. The original Fun Time Circus will be held at the Vanceboro Farm Life Elementary School Gym at 7:30 p.m. The Circus is sponsored by the local school for the entertainment of adults and children.

The Original Fun Time Family Circus is one of America's last old time traveling family Circuses. Founded in 1942 the Circus has appeared in 32 different states. It was recently featured on CBS television. This is the only performance the Circus will make in the area this year.

This is not a carnival, no gambling games or immoral acts or shows. This Circus offers just good clean family entertainment.

Tickets will be sold at the door on show day but discount tickets will be made available at local merchants. The admission is \$3 for adults and children will be admitted for half price.

All new show this year, featuring many acts and attractions never seen in this area before. You will see the Tee jays-jugglers supreme; Tomi Micheals and his flying saucers; Peerless Prestidigitation; Congo the almost human ape; Caine Capers; Miss Lori Ann; Tom Cat and Co.; Prince Levitan, Clown Prince; Unicyclists; Balancing Bravura; all this and more. Don't let your friends tell what a wonderfully fine show you missed. A show you can't see on TV.

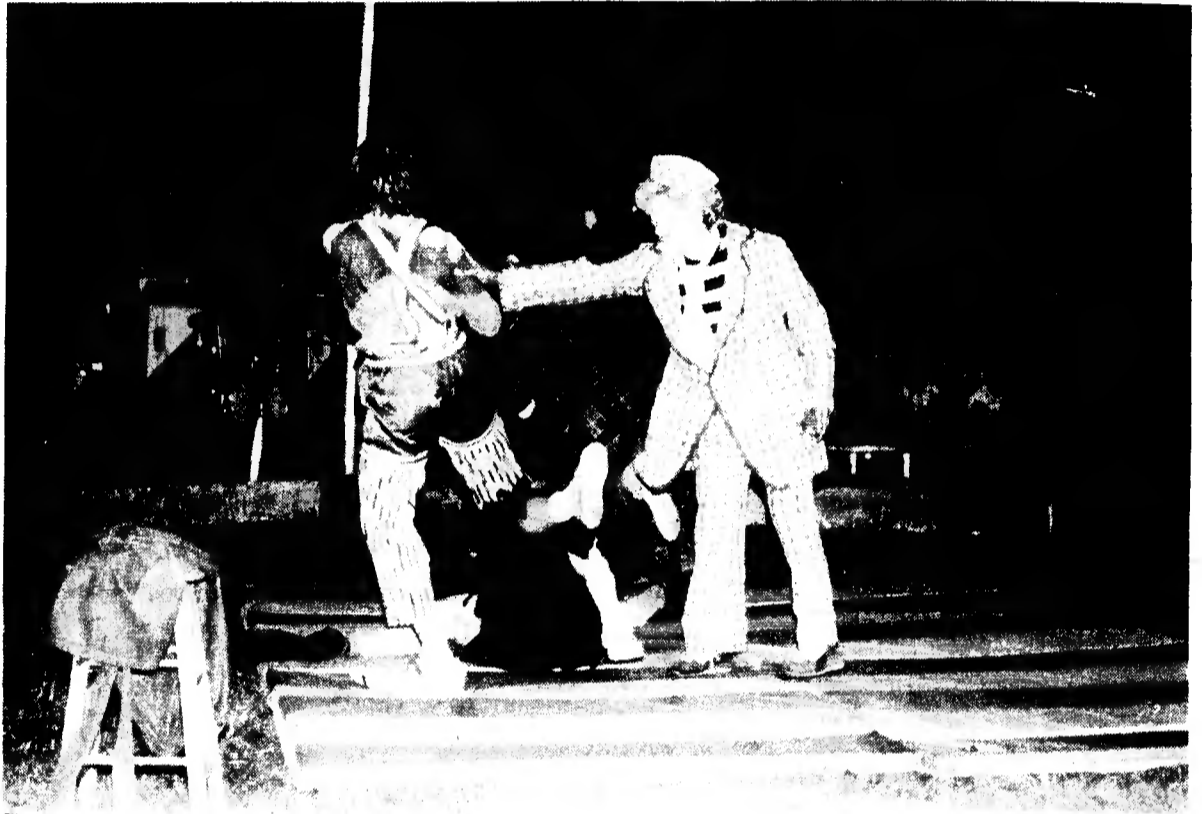

## Community College System Students Post Top Nursing Scores In The State

Students from 32 institutions within the State Community College System took the State Board of Nursing Examinations in July along with graduates of the University system and diploma programs for Registered Nurse Education. Ninety-four percent (93.56%) of the first time writers for the examinations from the Associate Degree Nursing programs in the Community College system passed the exam compared to eighty-eight percent (88%) of the graduate from the University system. The Carteret Technical-Craven Community College Associate Degree Nursing class of 1984, with 29 graduates writing for the exam, showed a 97% passing rate.

Dr. Vercie Hardee, Coordinator of Health Occupation Programs for the Department of Community Colleges reports that this is the third consecutive year that nursing students who had attended the N.C. Community College system institutions have excelled on the State Board of Nursing Examinations. The first class from the Carteret-Craven program was the class of 1975 according to Polly Tillman and since that time the Carteret-Craven graduates have scored higher than state averages.

Dr. Hardee states that there are a number of factors that contribute to the Community College system's scoring success. She reported, "We try to pinpoint which applicants may have problems and offer these students essential developmental courses." She also said that improvements in faculty education, more effective use of clinical facilities, and improvements in the nursing curriculum were major factors for the high scores.
