Quite interesting.

## Freshman-Sophomore Dance Is Success

Bob Montgomery and Orchestra Play for Event

Saint Mary's parlor was the scene of the annual freshman-sophomore dance the night of February 5. This dance was wonderful in every conceivable way. Everyone looked her best and had a delightful time. Bob Montgomery pleased the dancers with his orchestra by playing just the right number of slow pieces, alternating with a few lively ones. The orchestra's drums and piano were especially good. Adding to the charm of the dance was the attractive color scheme created by the pinks of the gladioli decorating the parlor, by the predominating pink and white of the formal dresses, and by the white of the girls' long gloves. As more than half of the boys wore tuxedos rather than uniforms, the dance had a pre-war atmosphere. Best of all, there were two boys present for each of the fifty girls.

A crescent shaped net (the Solomons to the south, the Gilberts at center, and the Marshalls to the north) is encircling the Carolines. The Allies are encircling the Japan-ese Empire in New Guinea, India,

China, Aleutians, and Pacific Islands. A problem is how to secure Russian bases. The Russians are not at war with Japan nor do they apparently wish to become involved in a western and eastern war.

The plan is to turn from island hopping, or cutting at the rim of the nopping, or cutting at the rim of the wheel, to knocking out the hub, or center, of the Japanese Empire. The capture of Truk will be the beginning. The strategy—whether it will be from China, from Russia, or from the Aleutians—remains to be geon

Such are the problems and plans for Japan.

Became a Professional Upon Advice of Paderewski

Miss Draper believes her talents to be inherited. Her writing is the gift of her grandfather, Charles Dana, famous newspaper man, a style "simple, strong, clear, boiled down." Her love of the stage and gift of imitation was a stifled yearning of her grandmother, whose family were against a career for her in

A trouper for twenty years, Miss Draper is a native New Yorker. She became a professional at the advice of Paderowski, an old family friend. In World War I, she went to France and entertained the A. E. to France and entertained the A. E. F. Coming home by way of England, she made her first real stage appearance in London. She was such a success that she changed plans and toured Europe, Asia, New Zealand, Australia, Africa, and the Americas. In this war she has toured Canada for the British Red Cross and South America for the War Benefit. Her fame in this country is nation-wide.

Miss Draper's usual program is two and a half hours of almost continuous monologue, a feat few actors would attempt. She runs the gamut of emotions in the short space of ten minutes with but slight facial and vocal changes but with such completeness her audience feels it has been with the portrayed character all evening. Her solo-dramas are self-written, self-produced and selfacted, making her a one-woman pro-
