

Saints' Sallies

Spring . . . spring is the time when a young girl's fancy turns—to whatever she's been thinking of all the other seasons. It will probably mean just a few more letters in the at-going mail bags, and we hope a few more in the mail boxes. We'll, there is no harm in dreaming.

Margo and Lib Price went for a boat ride last week-end—up to the dances at the Naval Academy . . . Lucy Hancock and Sallie Robertson both went to their respective home towns to see their respective Navy men before their leaves are over. . . Maria went home this week too to see her brand new ensign, commissioned Tuesday.

As for the week-end gaities, they really weren't too obvious. Mary Warden was out at a "Class 11" dance with her ensign. . . . Stuart and Betty Lou had "old friends" to turn up Sunday. . . . Phyllis and Sarah Stewart dated the "usual ones." Betty Lou just got a big picture of the ex-Mackaller, now overseas; Sid received some good snaps of her pilot to add to the collection. . . . Bernie's friend from U. Va. came down for the week-end, but red roses from another source preceded that. . . . Speaking of flowers, Libbie Dickens had some camellias last week, and Maria was wearing another orchid. . . . J. Huske is holding up the S. M. S. tradition by going over to Chapel Hill for the week-end, even if it was to tell her ROTC "good-bye."

We can't do quite as much galavanting now as we used to or would like to do, but there are always the phone calls, overseas letters and souvenirs. Pat Bell's R.C.A.F. sent her a little stuffed French poodle. . . . And speaking of East Rock, all of the "Rockers" went to the joint birthday party of Noel, Pat, and Betsy Carter. . . . But Sister Baringer, Mary Butler, and Betty Goodwyn rated when they dated Citadel men who came up for the basketball tournament.

Saint Mary's sure seems to be going in for officers now, what with majors, lieutenants, and now Karlyn has a captain, who is very special. But never, never forget the ensigns for one precious minute. . . . Mil-lred Chapell's sailor was down for last week-end. . . . B. Boardman is quite happy now that her Army pilot is back from overseas.

Spring must be coming 'cause already people are going out on the sun porches. As usual, Miss Senecal is getting the best tan first. . . . Incidentally, what is this new game called "animal"?

Maybe there hasn't been sooooo much going on, but just wait 'til after vacation, and then EVERYBODY will be talking about vacation experiences.

Senators, and after he left she realized that she did not know who he was or how to sign the letters. The Senate chart solved this problem, though.

The Legislature will probably adjourn about March 15. Betty hopes so, because then she can go home to Elizabeth City to see her three weeks old nephew.

As For Music

Now that it's almost springtime, every young lady's fancy is probably turning to love! Since music is quite often an expression of love, the "young ladies" around Saint Mary's may like to know a few of the sentimental love ballads which have recently been recorded:

Jo Stafford seems to be taking the spotlight among the female vocalists these days. Her Columbia recording of *I Promise You* with *Let's Take the Long Way Home* is one of her newest.

There have been two good recordings of *Saturday Night*. One is a Decca by Woody Herman with *I Didn't Know About You* on the reverse. The other is a Victor by the Four King Sisters with the new hit, *Candy*, on the other side.

Charlie Spivak's "sweetest trumpet in the world" takes a solo in the new Victor recording of *Right as the Rain* with *A Wonderful Winter*.

Is There Somebody New is the question asked by the Delta Rhythm Boys. Their Decca recording with *Gee, Baby, Ain't I Good to You!* on the reverse is really good.

Proceeding with the theme of "spring," we are reminded that Easter is not far off. John Seagle, with the "Westminster Singers" has made a Decca album of Easter songs. Included are *Hosanna, The Strife Is O'er, The Day of Resurrection, All Hail the Power of Jesus' Name, There Is a Green Hill Far Away, The Holy City, Christ the Lord Is Risen Today, Fairest Lord Jesus,* and *Come Ye Faithful, Raise the Strains*.

Other new albums include one by Glenn Miller. The songs are *Song of the Volga Boatman, Tuxedo Junction, Little Brown Jug, Moonlight Serenade, Pennsylvania Six-Five Thousand* and *Star Dust*. They are all old favorites which Glenn Miller helped to make famous.

possible to keep the heat in the buildings. Now that the weather is turning warmer, the heat is usually cut off at the plant about the middle of the day. If windows and doors are kept closed and radiators on for a few hours in the morning, this heat would be sufficient to carry the school throughout the day.

Saint Mary's made a contribution to the Raleigh scrap paper drives, but this could be increased considerably. All bulk paper, such as newspapers and magazines, that is stacked at the end of each hall in school is collected daily and stored by the school until there is a paper collection in the city. If girls would remember to put all newspapers, magazines, wrapping paper, broken-down boxes, and other clean paper in these stacks instead of in with the trash, the salvage amount could be virtually doubled. Remember that all paper can be used for salvage and should be stacked for collection.

Fats from the kitchen, according to Miss Lane Siler, are salvaged for future use and so are not turned in to the government.
