## Honor and Cooperation

Year by year each girl at Saint Mary's is put more and more on her honor to do the things which are honest, straightforward, and truthful. Yet we have to be reminded of some things which we should never have to be told to do. One of these is going to chapel.

In the past, proctors have seen that everyone attended chapel; this year we are put on our honor both to go and to be there on time. It should be no obligation to go to chapel three times a week, but rather a desire within us to go to and take part in these services. The quietness and restfulness which we experience there could lift us and make us look forward to our services.

Now that we have been put on our own about chapel, and about numerous other things, we have opportunities to show our trustworthiness. If we make it evident that we deserve to have confidence placed in us, we can finally achieve our goal of complete student government. This will take the co-operation of every person, but it can be done.

## 'Rumors Are Flying...'

Loose talk—dangerous talk—frightened whispering of "another war," "the end of the world"—flies irresponsibly about in many current conversations.

Much of this hysterical talk is a type of unwarranted propaganda. This kind of propaganda—expressions of opinion neither sound nor exact—may lead us into another war.

Military leaders whisper among themselves "War with Russia is inevitable; we must fight Russia." If this is kept up, many thoughtful persons may be convinced that war really is approaching.

Pessimistic, hysterical war talk, coming from national, political, or

# SPOTLIGHT

Our spotlight shines on a senior gal Who as chief dance marshal should be your pal.

She came from Wilson, N. C., last year And is now a dignified senior here.

After graduation she's Carolina-bound But to marry is her ambition, we found.

She dislikes work of any kind And "no drag" after meals doesn't suit her mind.

Her favorite color, she says, is yellow, And "Baldy" is her favorite fellow.

Her most exciting moment was the night She crossed a street on the green light.

Her favorite person's a girl named Beau. I'm sure by now her name you know. . . .

## SAINTS' SALLIES

Pat Ambrose, Lila "Sandy" Spilman, and Edith Allison had dates with Davidson boys for the State-Davidson game Saturday night. . . . Ruth Clark and Sara Barbee went up to Princeton last week-end! 'Nough said! . . . What was Marion Guest doing sending a wire in the pay telephone the other night? It had something to do with an important date this week-end.

Lillian Lumpkin and Ann Lanier are still keeping their fingers crossed about their going to the Georgia-Alabama game on Nov. 2 in Georgia. . . . Nellie Truslow and Marilyn Whetstone went to the Maryland-Carolina game Saturday. How did Nellie get away with rooting for Maryland with a Carolina date? . . . Susan Taylor really must have had some date for the Carolina-V. P. I. game because she hasn't stopped telling us about him yet.

Helen Eppes is usually seen hanging around her mail box these days waiting for letters from McCallie. She doesn't have to wait very long either! . . . Myrtle received a beautiful orchid from a State boy who had to break a date. . . . Martha Brickhouse dated her Norfolk man last week-end, and Jo Darden and Nancy Holland dated two from the University of Richmond. Sara Waddell likes Richmond too, since she made up with Him.

"Priss" Ford gets calls every Sunday night from Parris Island. "Priss" doesn't have any of this lonely Sunday night business about her. . . . We hear that Martha Conger has one admirer that she has never seen. . . . Wouldn't life be swell if we could all be as happy as Camp? Of course, we all know why.

Luck Flanders dated a cute K.A. last Saturday night. . . . Mary Beth, Sue, and Kalevas had a very successful trip to Duke last Saturday—really successful!

June Fleenor and Jo have dates from Davidson this week-end. . . . Betty Bowles is having her "Very Special" up here this week-end. . . . Katie Evans and Carolina fans seem to be hitting it off fine. . . . "Eppie," Musette, and Ann have plans for this week-end.

personal prejudice, can too easily arouse public opinion and in the end lead to war.

Recently England was given a store of atomic bombs which she is "holding for national emergency." What national emergency? Surely if England, or any other country, prepares herself for an emergency, an emergency will likely arise. If all people will convince themselves that there to be no emergency, then there will be none.

We must share our secrets— even war secrets. Naturally Russia fears the United States. She has reason to fear. Likewise we fear Russia and have reason to fear. Neither trusts the other. Trust among nations is a step on the path toward peace; and the approaching of situations with open minds is a way to that trust.

Texas Democratic Senator Tom Connolly's soundly based words are worth repeating. "We must not, we cannot have another war. It is imperative to believe in peace and, believing it, to pattern our lives for a peacetime civilization. Propaganda must be allowed to twist the seeds of peace into weeds of war."
