

**Students Act
As Campus
Assistants**

St. Mary's offers the willing student some excellent opportunities to earn extra money. There are three types of jobs open to the girls—library assistant, switchboard operator, and post-office assistant.

Working the switchboard requires a great deal of dexterity and patience. The night operators are not slow in saying that, at exactly 9:30 p.m., all the little lights begin to flash madly. Those girls working the night shift from 6:30 to 10:10 are Mary Roper, Georgia Roux, Ann Branch, Phyllis Cannon, and Gretchen Bullard. They average about three hours of work a week. Juliet Henson, Sarah Pierce, Virginia Lynn, and Mary Baskerville, who are the daytime operators, must also be swift of finger. Their hours are from 4:00 to 5:55 in the afternoon. Whenever any of these girls finds it impossible to work, she can call either Tiki Soper or Payton Wright, the two capable substitutes, to take her place. If the students of St. Mary's would only realize how difficult it is to run the switchboard, their complaints would change to praises.

It is doubted that the girls who wait around for the mail everyday realize how dependent they are on the three able post office assistants. Minnie Lou Creech, Barbara McKenzie, and Reide Watson help sort and distribute the mail, and they may even write the package list on the blackboard. They also help Mrs. Beam in the bookstore.

The five library assistants are also kept rather busy. Mary Henry, Alice Stallings, Barber Gilbert, Kit Townsend, and Lynn Matthias each put in about six hours of library work a week. These girls handle all new books that come into the library. Each book has to be pasted, stamped, and shellacked. The girls responsible for keeping the older books mended, getting magazines for students from the periodical room, and putting books on and off reserve. The girls often take part in arranging book displays and bulletin boards, and this year three of them are checking indexes, making it easier for students to find out if a certain book is in the library. Lynn, who worked in the library this summer, does all the lettering.

**Sports Interest
Continues**

St. Mary's sports competition has begun a new year with a well-rounded program. Its schedule includes soccer games, a bridge tournament, and a posture contest. All these activities have been approached with great enthusiasm by both the Sigmas and the Mus.

The first soccer game was won by the Sigmas, 4-0. The play was close during the whole game, and good team spirit was shown by both teams. Linda Connelly, on the forward line, was one of the outstanding players. On October 28, the second game took place, with the Mus winning 6-2. Verna Gillam, a Mu forward, played an outstanding game. The week of November 5-9 saw two soccer games won by the Sigmas on Monday and the Mus on Wednesday.

The bridge tournament has gotten under way with good participation. The Sigma finalists are Susan Ehringhaus and Janie Stronach, both day students. The Mu semi-finalists are Barbara Boisseau and Frances Arnold on one team and Betty Pat Parsons and Mary Jim Baskerville on the other team. In the finals of the Bridge Tournament, the Mu team defeated the Sigmas.

The Campus Cat

Dear John,

This letter is to inform you not to bother taking that long tedious trip up here you had planned for November.

John, I'm not going to give a long drawn-out story about how wonderful it was kissing you, writing you (when I did write), plus just plain knowing you.

Sooner or later it had to come to this: I think we both knew, but didn't want to admit it. I only wish you were writing this letter to me because I felt like a "rat", but isn't it better for you to know now than after you made that long trip up here?

I was listening to our records with Fred the other day, but it's not the same without you.

How can we both go on like this; only seeing each other once or twice a year. Yes, you say "go out with other boys, but just don't get serious"; it's easier said than done. I've come in contact with a lot of swell guys and I am getting the reputation of a "Fly by night." They say that I'm only out for my convenience and pleasure; I can't let this go on.

John, I want you to believe this; I still feel the same way about you. Maybe you should have listened to your friend from Montreal.
