

## ANNUALS DISTRIBUTED EARLY THIS YEAR

On Wednesday, May 14, the 1968-69 edition of the **Stagecoach** was dedicated in the Publications Assembly and then distributed to the students. The annual was dedicated to Dr. Stone as another tribute to the fruitful years which he has spent as the president of St. Mary's. ness manager for next year.

There were many changes in the annual this year: a dark green cover, a different introduction, more candid mood shots, color pictures, "kickers" at the bottom of each page which gave the topic of the page, and a contemporary presentation of May Day activities.

Another change in procedure this year was the distribution of the annuals before class day. This was done because the staff felt that the annual belonged to the whole school and should be presented when the entire student body was present.

The annual was published by the American Yearbook Company in Cambridge, Maryland. At the close of school, Mary Vance, Marsh Pulley, and Lucia Drury will travel to Cambridge to work with the company in drawing up the plans for next year's annual
