## A MODERN TRICKSTER BE

- Take your watch and place it on the table in front of you.
- Produce a nickel and a dime and announce that you propose to try some mental telepathy.
- Ask someone to think of any number on the dial of the watch, double it, and keep it to himself or herself. Explain that the dime represents the doubled number.
- Now tell the person to choose either one number higher or one lower than this number, and let it represent the nickel. With these two numbers known only to himself/herself, tell him/her to take the dime in one hand and the nickel in the other while you turn your back.
- Next, ask the person to double the number represented by the coin in the right hand, and treble the number represented by the coin in the left hand. Then add the results of the numbers represented in both hands, but do it mentally and inaudibly.
- Finally, ask the person to tell you the total sum. How can you tell which coin is in which hand?

**Answer: A MODERN TRICKSTER BE**

If the sum is odd, the dime is in the person's right hand, and the nickel is in the left. If the sum is even, the dime is in the left hand, and the nickel is in the right. Note: The watch has little to do with the "trick"; its presence is for effect and to confuse the "victim."

# Horoscopes

By Jennifer Hall

**Scorpio (October 23-November 21)**

Do not worry about loves you have lost. There is someone in your future who will make your past disappear. Let go of yesterday and live for tomorrow.

**Sagittarius (November 22-December 21)**

Lots of surprises are in store for you. Do not worry if today looks gray; tomorrow is sure to be a better day.

**Capricorn (December 22-January 19)**

You will have to turn to family for help soon. Remember their mistakes and learn from them. Do not let your morals be distorted.

**Aquarius (January 20-February 18)**

Your judgment and faith will be challenged continuously. The truth will always be your best friend when fools try to trick you.

**Pisces (February 19-March 20)**

Opportunities for travel will reveal themselves to you soon. Take the trip, but plan well in advance. Bad luck can spoil your fun if you let it.

**Aries (March 21-April 19)**

Your life will soon be heating up. Romance may seem as though it is going cold now, but watch out. Early morning romance will catch you by surprise.

**Taurus (April 20-May 20)**

Seek the rewards that preparation will bring you. Get started off on the right foot and the results will amaze you.

**Gemini (May 21-June 20)**

Your money resources will soon be running over. Save for a rainy day if you wish, but now looks like a good time to buy that something special for yourself.

**Cancer (June 21-July 22)**

A little bad luck may fall your way, but the good times that follow will overshadow it. Be patient. There is sunshine in your future.

**Leo (July 23-August 22)**

Be conservative with time, money and words of wisdom. You will have to make an important decision sometime soon. Be optimistic and examine both sides of the problem.

**Virgo (August 23-September 22)**

Love is in the air for you. The world may be down on you, but that special person will stand by your side. If you have survived spring fever, the worst is over. There is a long, warm winter in your future.

**Libra (September 23-October 22)**

Remember that sunny days do not last forever. A penny saved today is one less needed for tomorrow. Prepare for the future, and it cannot get you down.
