General Banking Department

Lends money on good security, pays out money on checks or drafts and does a general banking business the same as any other bank. Receives money on deposit subject to check, and asks business men and others for a share of their deposits and business.

Savings Bank Department.

This department of the Deposit and Savings Bank provides a safe and profitable place for the earnings and savings of all persons in either small or large amounts, and money will be received at the Bank from 9 o'clock a. m. to 12 o'clock noon and from 1 o'clock p. m. to 3 o'clock p. m. daily and on Saturdays from six to seven o'clock p. m.

Men, women and children may make deposits for themselves or others. Married women and children have absolute control of their deposits and no one can get their money without their consent.

Which will you adopt and teach your children to adopt the habit of spending or the habit of saving. Every boy and girl, every man and woman is today forming a habit of either spending or saving. The spending habit leads to momentary pleasure, lasting regrets and to an old age embittered by the pangs of poverty.

The saving habit gives assurance for the present and the promise of future prosperity a comfort in sickness and old age.

The first dollar saved is but an incident. The second dollar saved starts a habit that will lead to wealth. Each dollar you put at interest helps to earn the next dollar.

Bring your savings to the Deposit and Savings Bank—it will safely lend your money and pay you four per cent compound interest on every nickel you save.

Ever boy or girl who habitually saves five cents a day will have several hundred dollars to start him or her in life when of age.

The savings fund department of the Deposit and Savings Bank, North Wilkesboro, N. C., receives deposits in very small amounts and pays four per cent compound interest. Interest compounded every four months.

The Child

Who receives an early training in saving small amounts will acquire a habit that will make it natural and easy to save larger amounts in later years.

The Clerk

Who saves 50 cents a week will soon have him a fund that will start him a business of his own. The clerk who saves nothing will always be a clerk.

The Mechanic

Who saves one dollar a week can become his own boss in a few years.

The Business Man

Who keeps a savings account separate from his business bank account and deposits \$2.00 a week in the savings fund department of the Deposit and Savings Bank will be amazed to see how quickly he will have a good sized balance against a rainy day.

The Deposit and Savings Bank

Has your money insured against loss, guarded day and night, pays interest and pays you back your money any day you want it. If you leave it about your house it may be stolen or burned.
