**Hectic Week**

The Associated Collegiate Press in a recent news release stated that "The Optimist," a weekly newspaper on the campus of Abilene Christian College, Abilene, Texas, recently met its deadline, even though —

The editor's bed burned. She and her husband moved from their house into a motel and tried to run the paper while washing smoked clothes. Somebody forgot to set up a room for Friday's staff meeting.

The list of reporters' assignments got lost.

The business manager was in two successive auto wrecks. It could have been worse. The week before, the press broke down.

**Trip to Carson-Newman Crowd Pleaser**

By Bessie Cline

Still recovering from the train trip to Carson-Newman last weekend, MHC students are just beginning to settle back down to studies. After a long afternoon ride to Jefferson City the game began at 8 o'clock with a roaring crowd of Lions. The game was good, MHC school spirit was running high and the gusty pep songs from the band added to the excitement.

After the game the more talented students of MHC presented a special show for the Carson-Newman student body. Along about the stroke of midnight the weary students trudged back to the train for the "sentimental journey" home.

Marshall came to life around 3:30 a.m. Sunday when the train pulled into the station. Sleepy and excited students slowly piled into waiting cars and returned to the campus for a short night's sleep or long morning's nap.

Everyone seemed to enjoy the "new" adventure and verbally voted appreciation to the Student Government officers who "dreamed up" the idea. Some very delightful comments have been heard concerning the weekend's events. A few are as follows:

Jerrie Mallonee: When are we going again?

Dick Matheson: I had planned to sleep, but Jerrie talked all the way.

Jane Watts: Wish we could do that for all the out-of-town games.

Linda Whitaker: I think the trip and the school spirit was great. I also think that the whole student body deserves commen-

dations for their conduct. I think that it proved that our student body has a sense of responsibility when given an opportunity to prove it.

Carole Hamby: I thought it was fabulous. I loved every minute of it.

David Clapp: Whee !

Rosa Pittman: I think something that good should happen more often.

Barbara Grant: I think it was great. I think that it helped the school spirit more than anything.

Brenda Pope: I think it was a great idea and a wonderful show of our school spirit.

Nancy Morgan: I think it was great. Everything went clockwise and went right into place.

Judy Duckworth: I enjoyed it very much. I think that it helped

Sophomore Danny King is a real live hero, but to him heroic deeds are "all in a day's work."

While serving as a life guard and swimming instructor at the Forest Hills Pool in Durham last summer, Danny noticed that an 11-year-old boy had "blacked out" while practicing a prolonged underwater stunt. He pulled the boy out and administered mouth-

the school spirit a lot.

Jim Alexander: A most rewarding experience for everyone, especially the school. Perhaps it means we are beginning to grow. I know I did . . . believe it or not!

C. B. Coleman: More! More just like it! It was great. A real blast!

Jim Whetstone: I think it should become traditional.

Bill Pruitt: It shows what students can do.

Gary Brookshire: I think the entire weekend was a tremendous success. The conduct was excellent and the student body deserves special recognition for their wonderful participation.

Jimmy Daughtry: It was a fine example of what a motivated student body can do, and a real credit to the organizational abilities of our student government.

Bill Harvey: I thought it was great and the best thing the school has ever had in the way of student activity.

Joyce Ann Duckett: I think the Carson-Newman campus is beautiful. I was impressed with their new cafeteria—and the food as well.

Craig Greene: It seems to me that the Carson-Newman students were saying among themselves, "Why don't we have a school spirit like Mars Hill?"

Sandra Harris: I think that the trip to Carson-Newman was a great success and I hope that this can be done again real soon.

Ricke Cothran: It was a marvelous trip. I enjoyed seeing and talking with many old friends at Carson-Newman, especially one young lady.

Floyd Bateman: I think that what impressed me most was the excellent food served. If Carson-Newman can do it why can't Mars Hill?

to-mouth resuscitation until the Durham Fire Department's Rescue Squad arrived.

The near-victim was Douglas Morris, son of Dr. James B. Morris, a chiropractic physician in Durham. Danny cherishes a letter he received from the grateful father. One paragraph is as follows:

"We constantly read so much in the papers about juvenile delinquency that many adults sometimes feel that they do not know what the young people are coming to. Therefore, it is heartening and refreshing when a young boy your age assumes such a grave responsibility and through heroic measures is able to demonstrate that as long as we have young boys of your integrity and caliber the world will continue to be a better and happier place to live."
