

**CLASSICAL GUITARIST
to VISIT
HILL**

In 1973, Kunze became the first person to receive the Master of Music degree in guitar from the University's School of Music. At the School of Music, Kunze studied under Bruce Holzman. He has also performed in Master Classes of the British composer-teacher John W. Duarte, and has studied with the Argentinian virtuoso Manuel Lopez Ramos.

His program for the Mars Hill appearance will include selections by Milan, Bach, Heitor Villa-Lobos, Ponce, and Duarte. There is no charge for the recital, which will be held in the college's Moore Auditorium, and the public is invited.

Albert Kunze, noted classical guitarist, will present a guest recital at Mars Hill College Thursday

night, January 31, at 8:15 p.m. Currently musician-in-residence at Mayland Technical Institute, he and the school are participating in a program of the North Carolina Arts Council which makes a musician's performing services available to the people served by the various colleges and institutions.

Originally enrolled as a Physics major, Kunze became interested in the guitar through a friend at the University of Florida. A change of majors led to his completion of a B.A. degree in Music History and Literature with high honors. While at the University of Florida, he was elected to the honorary societies of Pi Kappa Lambda and Phi Beta Kappa.

**GIBSON NAMED to
REC BOARD**

by Eric Garner
Mars Hill College Head Football Coach and Athletic Director Claude "Hoot" Gibson has been appointed for a 6 year term to the N.C. State Recreation Commission. The appointment was made before Christmas but not made official until early January

by Governor Jim Holsouser. For the Governor, Parks and Recreation rank among the top priorities of his administration. Holshouser expressed confidence that Gibson would work hard and be a valuable asset to the Commission.

T.A.V.I.C. TONIGHT

by Jonathon Riddle

The "Golden Age of Rock-n-Roll" returns to Mars Hill College tonight January 30 at 8:00 p.m. as the College Union sponsors a "Grease Ball." However, old McConnell will replace the corner malt shop as the local hangout for all those keen chicks and groovy guys at Mars Hill.

Featured will be T.A.V.I.C. (The Absolute Value in Concert), a group considered "the rebirth of 'Sha-na-na'." The

seven-member group from the Asheville area, which played at the Mars Hill Greek Ball, has been together eight months, playing popular music from the fifties and early sixties. The group is headed by Ron Hipps and Tucker Smith, a student at Mars Hill. Other members of T.A.V.I.C. are Paul Gayheart, Eddy Miller, Buddy Hines, Eddie Jones, and Gary Presnell.

The band will be dressed in costumes of the period, and they encourage all

others to dress for the occasion. In fact, \$5.00 prizes will be offered for the most authentically dressed couple and individual. Also, a \$5.00 prize will be offered in a dance contest. So, girls, don your pleated skirts, bobby socks, and saddle oxfords and, guys, be sure to wear your best leather jackets, T-shirts, and penny-loafers. Bring your I.D. and swing by McConnell tonight. There is a \$1.00 charge for couples and 75¢ for individuals.

**LAUREL PAGEANT
Set For 6th**

by Eric Garner

The annual Miss Laurel Pageant for 1973-74 is finally here. The event (usually held in November) had to delay due to scheduling conflicts. The pageant is set for February 6 at 8:00 p.m. in Moore Auditorium. There will be a 25¢ per person admission charge.

The pageant is sponsored by the Laurel Yearbook and the Phi Mu Alpha Symphonia members, who are preparing the technical side of the beauty contest. The thirteen contestants will be judges on points accumulated in three categories: street clothes modeling, talent display, and evening gown competition.

The theme for this year's pageant is "On Broadway" with music

**What Is
MHC
Doing
to
Conserve
Energy?**

by Connie Montague

At an outward appearance it would seem that MHC is doing little to conserve energy but after talking with Mr. Fish, director of the physical plant, it seems that the school is doing well with the limitations concerning the cutback in fuel consumption. The school has an allotted amount, and with this allotment, the heat is concentrated evenly in all buildings. "Temperatures in different buildings vary," Fish said, "because of the heating systems being different in each building."

What Mr. Fish has bought is coal as well as oil. The heating systems will be reconverted, thus, we are going back to coal heating as a cheaper means of heating.

Mr. Fish is also pleased with student cooperation in turning out unneeded lighting, closing their doors, keeping their windows closed, as well as cooperating in the decrease of temperature. With these promising factors, the school is saving on fuel as well as maintaining a good heating system.

to be performed by the Mars Hill College Stage Band. The MC for the contest will be school president, Dr. Fred Bentley.

The director for the contest is Steve Miller, a junior and member of Phi Mu Alpha. Mr. Walter Smith is technical advisor and Mrs. Jill Prior is head choreographer.

14 NAMED to CO-OP BOARD

Glenn C. Trantham, director of the cooperative education program at Mars Hill College, has announced that a 14 member advisory board has been appointed for the new academic program. A nine member executive committee composed of faculty members has been serving through

the Fall and will continue to serve as advisors on the newly created board.

The co-operative education program, in its initial year at Mars Hill College, draws its name from co-operative efforts of employers and educators. The 14 chosen for the advisory board were picked to

represent a diversity of social elements. Private industry, government agencies, public education, service agencies, and the community at large were all considered when making the selections.

The members are: Jim Matthews, comptroller of the Ameri-
