gree in P.E. from Northeast Louisiana University. He received a master's degree from Memphis State University and is in the final stages of completing his Educational Doctorate at the University of North Carolina at Greensboro. At Northeast Louisiana he was a member of the varsity baseball team, student government, and lettermens club. He was a member of the graduate council at U N C - G, named Who's Who in American Colleges and Universities, the Dean's List, and has been editor of the southern district newsletter of the American Association of Health, Physical Education and Recreation. Charpio is a water safety instructor, instructor of safety and first aid, both sanctioned by the American Red Cross, and a football and basketball official.

Harold A. Herzog, Jr. has been named an instructor in the Social and Behavioral Sciences Department. A Florida native, Herzog received his Bachelor's degree in Psychology from the American University of Beirut, Lebanon. He has also received his Master's degree in Psychology from the University of Tennessee this past August.

Dr. William Hutt has been appointed assistant professor of Biology. Hutt, a Michigan native, received his A.B. degree from Calvin College in Grand Rapids, and his MEd. and PhD degrees from the University of Georgia. While completing his master's degree Hutt received a National Science Foundation fellowship and a fellowship from the National Defense Education Act. Hutt

has also published several articles in scientific journals.

William J. Murphy has been named assistant director of the social work program and instructor in the Social

and Behavioral Sciences Department. Murphy is a native of Connecticut, and received his Bachelor's degree in English from Central Connecticut State College. He received his Master's in Social Work from Virginia Commonwealth University this May. Murphy has worked with the State Health Department and Community Organization of Virginia, as a caseworker for the Richmond Department of Public Welfare, as a caseworker for the Connecticut Department of Public Welfare, and the Office of Economic Opportunity in New Britain. He also worked with the Hartford daily newspaper, Courant.

Susan Anita Murray, a native of Mars Hill, has been appointed an instructor in the Physical Education Department. Miss Murray is a Mars Hill alumna, receiving her Bachelor of Science degree in Physical Education. She has received her Master of Science degree in Physical Education from the University of Tennessee. At Mars Hill she was named to Who's Who in American Colleges and Universities, a member of the student government association, girls basketball, head cheer-

leader, and was Football Queen. She is a Water Safety Instructor and a Water Safety Instructor for the handicapped, licensed by the American Red Cross. Miss Murray is a member of the American Association of Health, Physical Education and Recreation.

Robert Olaf Abbott, a former Mars Hill professor, will be returning to the campus as an instructor in the Modern Foreign Languages Department.

Abbott received both his Bachelor's and Master's degrees from New York University. A Virginia native, Abbott has studied at universities around the world, including the University of Paris, Dolmetsche Schule in Munich, and University Central in Ecuador.

Also returning to Mars Hill is Noel James Kinnamon. Kinnamon has been named assistant professor of English. He is a native of North Carolina and received his Bachelor's degree in English from Duke. A Phi Beta Kappa graduate, he was also a member of the Duke Glee Club, chorus, and chapel choir. He is completing work on a Master's degree in English at the University of North Carolina at Chapel Hill.

ENROLLMENT

MARS HILL - While some schools are comparing their situation to Old Mother Hubbard, Mars Hill College likens its situation to that of the Little Old Lady in the Shoe. For the third straight year, officials are predicting that enrollment records will fall. "We are being conservative when we predict 1550 students," comments acting admissions director David Mathews.

This month the college will begin its 119th year with a completely new curriculum. Initially funded by a \$ 100,000 grant from the Kellogg Foundation, the new competence based program is designed

to identify certain skill and knowledge levels which represent the ideal intellectual, emotional, and psychological development of each student. It is the only such program in the state, and one of a handful in the nation.

This new approach will emphasize the accountability of the college in the progress of each student, and, more importantly, will recognize that many different levels and capacities for learning exists within the student body. This means that each student will have an

individualized approach to his development. The end result is that the college will be able to certify that each student who receives a degree will be able to demonstrate proficiency in his chosen area.

Officials contribute the rise in enrollment to several factors. "We have a low attrition rate among our returning students," comments Mathews, "and since expanding our staff, we have been able to respond quicker to more people than before." Mathews also credits the college's alumni with a more active role in identifying prospective students.

Vice-president for academic affairs, Dr. Richard Hoffman said that the new curriculum is a key factor in the increased attendance and recognized several other programs which do not limit learning to the textbook and classroom. Foremost among these are extensive internship and co-operating programs which send students into the field for up to a year's experience.

idea for this album two years ago when he first read the Jules Verne book, Journey to the Center of the Earth. And turning it over and over in his mind throughout this time, while working on lining up musicians, (he used the London Symphony Orchestra, the English Chamber Choir and a small, non-famous rock combo which he hand-picked) finally on January 18, 1974, the show began. It was divided into orchestrated and non-orchestrated halves, punctuated by film clips and narration by actor David Hemmings. It is an album that has been a long time in the making by this keyboard wizard of Yes but it proves to be worth every minute put into it. With this album, Wakeman declares his independence from Yes and insures his own individual success.

LITTLE MAN ON CAMPUS

"PROBABLY THE BIGGEST PROBLEM FACING YOU YOUNG STUDENTS IN COLLEGE TO-DAY IS: WHERE TO FIND A PARKING PLACE FOR YOUR CAR?"

WMHC

Manager of WMHC, Ernie Howard, has filed an application to the FCC for the radio station at MHC. This procedure is long but WMHC has received their file number which is a good sign.

The radio station operates at 10 Watts FM at 90.1 on your radio dial. It will cover the campus and hopes to carry ballgames and local talent.

Howard commented that the staff would appreciate your understanding in awaiting our license.
