I be considered all excited about being back at school. and there have been things that worked out hat Billy McGill better have been things that Kannapolis, pressure than I ever dreamed.

Pressure is building as we move into Week's examination period. Someles it seems that there is just no way ssible to get everything done. We lay, hope, cry, bite our fingernails, and ork like crazy to get the things done that we have been putting off all semes-Our heads seem to spin as we try to

cram our whole semester into this last

But after next week, it will all be over. The festive atmosphere of the Christmas holidays will make us forget about all the papers, tests, and eight o'clock classes that this semester gave us. We will tend to remember the good times and good friends that have come our way. And when our grades come soon after Christmas we will not worry, because we will already be thinking about next year and what it will have to

Thank goodness Christmas comes when it does. Thank goodness Jesus came when he did. If Christ had not come, we would all be lost and we would have nothing. But because of Jesus we are heirs according to the promise God gave to Abraham (Galations 3:29). Therefore, through Christ we have everything that God has promised. Let's all remember this as we go into these last few days of this semester. May God be with you all.

Have a Merry Christmas.
