## 29 MHC Students Named To Who's Who

The 1981 edition of *Who's Who Among Students In American Universities And Colleges* will carry the names of 29 students from Mars Hill College, who have been selected as being among the country's most outstanding campus leaders. They join an elite group of students selected from more than 1,300 institutions of higher learning in all 50 states, the District of Columbia and several foreign nations. Outstanding students have been honored in the annual directory since it was first published in 1934.

The new members were nominated and selected by a campus committee composed of 15 student leaders, 1 faculty member from each of the 15 academic departments, and 5 members of the general administrative staff who serve the entire student body. These names were reviewed and approved by the editors of the directory and were included on the basis of their academic achievement, service to the community, leadership in extracurricular activities, and future potential.

## Student Minimum Wage Raised

BY: MELANIE PAINTER  
HILLTOP Reporter

The wages for both Work-Study students and the regular workers recently were raised. Until October 1, the wages were \$2.64 an hour, a figure which has now been upped to \$3.10. After January 1, another increase is expected, bringing the minimum wage of Mars Hill student workers to the national level.

This wage increase will affect many students here. Between 350 to 400 students are on the Work-Study program each month and 150 to 200 are regular workers. What is the difference between these programs? Work-Study students are only eligible to be on the program if, when applying, they have a definite financial need. The government pays 80% of these students' salaries. The salaries of the regular workers, however, are completely paid by Mars Hill College.

Students hold jobs in both programs all over campus. These students are employed by the Wren College Union, Epicure, the Athletic Department, the library, and each academic department.

If you feel you are eligible for the Work-Study program and wish to apply,

## New Trustees Named

Mars Hill College has announced the appointment of nine trustees to its board following the North Carolina Baptist Convention meeting in Greensboro early November.

Eight of the nine trustees have served the college's board previously. Management of the college is legally composed of 36 North Carolina Baptists appointed to four year terms by the State Convention in North Carolina. The board delegates authority to the college president for the operation of the published procedures and policies, and the president is the official liaison between the college and the board.

The board approves all major policy decisions, adopts official budgets of the college and passes on other major matters of college business. The board holds regularly scheduled meetings each year in December, when these newly appointed members will be welcomed, and again at commencement in May.

The nine trustees appointed to new terms, which begin officially January 1, include:
