## Editorial

The constitution allows media bodies, Freedom of The Press. This grants the press the right to receive, formulate and dispense the news as it sees fit. There are few, if any, restrictions (except National Defense) that the press encounters, and more often than not, the press takes advantage of its "Free Hand" in the manipulation of society.

We, as editors of the HILLTOP, have been granted the right to convey the news to the students, in basically the same way as the press throughout the country. We do, however, have guidelines and restrictions which enable us to carry a message while insuring the atmosphere of a Christian institution. We

will not evade controversy or pad a story for the sake of someone's feelings or reputation, but will show reasonable discretion in the application of our appointed jobs. The paper is here as an instrument of communication, whether the message be good or bad. We hope that the student body and faculty realize the purpose of a newspaper and participate in its growth. We are looking forward to publishing the issues that affect our lives as well as those insignificant inserts that bring a smile to our faces. On a final note, we encourage correspondence between you, the members of our college community, and us, the editors of the HILLTOP.
