FYI

would you like to spend part of summer in the Rocky Mountains of Colorado and Wyoming? How do clear lakes, real western rodeos, snow-capped mountains, moose, elk, antelope and deer in alpine meadows, crystal streams fed by melting glaciers through a forest of aspen and ponderosa pine? If this is the type of experience you have been looking for, then this is the trip for you! We are currently underway within the Department to consider the development of a 1984 summer study tour to Yellowstone, Grand Teton and Rocky Mountain National Parks along with other selected stops along the route. This tour is open to faculty, staff, and students. Academic credit may be earned. If you are interested, please

contact Dr. Tom Coates in Chambers 203; phone 689-1187.
