dents and faculty throughout her years at Mars Hill. She plays the role of "Adopted Mother" on campus as she shares genuine love and concern for all the people that surround her.

One of the benefits she has enjoyed while working in the President's office is "getting a view all across campus and watching students develop in their particular area." She feels a great sense of pride as she recalls the students that have passed through Mars Hill College and gone on to accomplish so many things.

In addition to working very closely with the Board of Trustees and Board of Advisors, Miss Snelson has enjoyed working with international students as an advisor for about thirty years. Last September she traveled to Greece with a former student. She has also been involved with the International Club.

The special feeling Miss Snelson has for the people at Mars Hill has become evident through her sincere interest in their lives. She has directed over fifty weddings of the children of faculty and staff as well as faculty members themselves, including The Chapman's and the Fishes'.

Of all the aspects of her job, the daily routine is what Miss Snelson will miss the most. She says, "I'm not looking forward to the mornings to sleep late." There is no doubt that her days will be well spent. She is state treasurer of Delta Kamma Gamma which has 96 Chapters in North Carolina, and is also active in her church serving as President of the Women's Club, chairman of her mission group and member on the Board of Finances. She looks forward to putting more time into these things as well as the opportunity to travel.

When Miss Snelson leaves, Mars Hill will feel a great sense of loss, but there will always be a part of her that will remain and continue to bless the campus MISS SNELSON

Last week's snowstorm turned the Mars Hill campus into a battleground, as snowball fights broke out across campus.

Addresses Addresses Governors' Conference ISE GROH

Mary 26, Dr. Fred Bentley, the of the Southern Association of Schools, addressed the Governors' Conference in

gton, D.C. address concerned the standards th institution can become affilthe College Commission. Acto Dr. Bentley, the standards of tigorous enough to insure qual-Cation. Therefore, in December

of 1983, the College Commission adopted a stricter new criteria for accreditation by the commission.

In addition, Dr. Bentley traveled to Tallahassee, Florida on March 6 and 7 to address the Florida legislature on the same subject. These meetings constitute the beginning of an effort to improve the standards of preparation of teachers and students, according to President Bent-
