### THE GOSPELS IN HOPI

To the more than 800 tongues into which the Bible or its parts have been translated, two more were added in 1929.

Pause over this a minute.

It may jar the atheist as it will please the believer who remembers the injunction, "Feed my sheep." It is from the Nashville Christian Advocate (Methodist, South):

"For the first time the four Gospels were issued for the Eskimos of the Bristol Bay and Kuskokwim River district in Alaska from a translation made by Moravian missionaries aided by a group of natives.

"The four gospels were also published in the Hopi tongue for the Indian tribe of that name living near the Grand Canyon.

This is the first time that any part of the Bible has been made available for this tribe, and is the thirteenth Indian language spoken in the United States in which the American Bible Society has published Scriptures.

"The Book of Psalms, translated by Mr. George Allen and his daughter of San Pedro, Bolivia, has been published in Bolivian Quechua, a language spoken by a large Indian population in the Andes Mountains.

"The Book of Proverbs, published early in 1929, was the first portion of the Bible to appear in the new Turkish alphabet, in obedience to the edict of the Government forbidding the further use of the Arabic alphabet.

"Thus this great agency for disseminating the Scriptures pursues and enlarges its works."—Literary Digest.
