TWO IMPORTANT NORTH CAROLINA DATES

THE flag of the State of North Carolina bears two dates, May 20, 1775 and April 12, 1776. The first date commemorates the signing of the Mecklenburg Declaration of Independence when a group of patriots of Mecklenburg County assembled in Charlotte and declared themselves independent of British rule. The second date marks the day on which the Halifax Convention directed the North Carolina members of the Continental Congress to vote for a separation from England.

When the convention met at Halifax on April 14, 1776, a committee was appointed to report on England's conduct toward the colonies. On April 12th the committee reported that there was no hope of righting America's wrongs by the means already tried and suggested that the North Carolina members of the Continental Congress should join with the members from the other colonies in declaring independence.

Although a British fleet was then lying in North Carolina waters all the members of the convention voted for final separation. Mecklenburg County set the example for North Carolina and North Carolina to the other colonies, being the first to break its ties to England.
