

Rudolph Watters, Graham Dean and Tommy Jenkins, Jr., are camping along the river this week. The boys don't want to be bothered by any grown folks and are going to stay as long as the grub holds out. They

have a 22 rifle and plenty of fish hooks. Messrs Homer Jones, Clyde Liske, and Frank Kemp spent the week-end in Washington, D. C.

Local Students Win High Honors While Away at Colleges

Rosemary and Roanoke Rapids have every reason to be proud of their boys and girls who are away at colleges, for the many activities they have engaged in, and in almost every case have come out on top. Several things have appeared in the papers from time to time as the information has come to the writer, the most recent of which was:

At a recent meeting of the Tau Beta Pi, national honorary engineering fraternity held in the ceramics building of the State College in Raleigh, J. B. Gurley of Rosemary was elected a member and also vice president. The members are voted upon on their scholastic standing and ability as leaders. From the same college comes the news that at a North Carolina State Chapter meeting of the Gamma Sigma Epsilon, national honorary fraternity held recently, I. J. Crouch was elected as Grand Alchemist. At a previous meeting a committee had been appointed to make a list of those men majoring in chemistry whose scholastic average was equal to the high standard set by the fraternity.

At Meredith College Miss Sara Elizabeth Jenkins has made a splendid record and has been elected head of the Sunday School work.

And also from State college Rufus Vick has the honor of being elected to the presidency of the Alpha zeta fraternity.

Fire Department

The Fire Department met last night and is this week requesting all the mills to paint their fire plugs red and white as the city plugs are painted. The Department also asked the city to see that weeds and high grass are cut from around city hydrants. All property owners are asked to keep alleys clean of paper and rubbish which might cause fires during the dry summer months. The Department is as much interested in preventing fires as in fighting them.

Glenn Thompson To Enter West Point The First of July

Glenn Thompson, son of Mr. and Mrs. W. O. Thompson, has received his orders to report for duty at West Point Military Academy on July 1st. Glenn recently completed a preparatory course in a military school at Washington and passed his entrance examinations to West Point.

Note—Not to be quoted. We are told that all plebes, first year men, or whatever they are called, must recite to any upperclassmen at any time requested all the nice things the home town paper said about his entrance into the Point. Therefore, out of friendship for Glenn, we will say nothing more than the Best of Luck.

Prosperity—1930 Brand

Charleston Gazette—Prior to the election of 1928 we were assured by a swarm of spellbinders and greasers that the great engineer would accomplish wonders for his country. He had, we were told, some mysterious panacea for any business ill. With him in the White House everything would be lovely. We pictured a rosy picture: More jobs than there were people to do them. High wages and steady employment.

Declining prices of necessities. A radio, an automobile, a washing machine, a vacuum cleaner, an electric refrigerator and electric dish washer in every home.

Abundant money available for lending at banks at low interest.

Low rates and great building activity.

Active trading and speculating.

Vast volume of business for the retailer at high prices.

Everybody contented; everybody happy.

No more worry.

Let the great engineer do it.

NOW LOOK AT THE DAMN THING!

A WONDER in TRAFFIC

Oldsmobile's ease of handling and quick responsiveness make it a wonderful car in traffic. Every control operates so smoothly and effectively. Clutch, brakes, gear-shift, and steering—all work with delightful ease. A touch on the throttle, and the car flashes away as the signal light changes. And it pulls down to a smooth, silent stop immediately, when the signal's against you. As for parking, just try it yourself. Pick a restricted space at the curb—and see how easy it is to fit Oldsmobile into that space. Then, try Oldsmobile on the road. Its all-round performance will tell you why Oldsmobile is such a great car to own.
